Regarding Reciprocity.

## GRATEFUL FOR DEMOCRATIC AID

Chief Executive Freely Acknowledges That Measure Would Have Failed but for the Support of the Democrats and Says They Did Not Play Politics but Followed the Dictates of a Higher Policy—Generous Praise for Framers.

Beverly, Mass., July 24.—In the first statement he has made since the passage of the reciprocity bill by the senate President Taft, at the summer White House, freely acknowledged that his long, hard campaign in behalf of that measure would have proved unavailing if the Democrats had not helped him. Without such aid, the president declared, reciprocity would have been "impossible."

"The Democrats did not 'play politics' in the colloquial sense in which those words are used," said the president, "but followed the dictates of a higher policy."

For Secretary Knox and his assistants in the state department who conducted the negotiations and framed the pact the president said more than a word of praise. Those Republicans, he said, who fought for reciprocity, "and some of whose votes were necessary to the passage of the bill, may properly enjoy mutual felicitations on a work well done."

In his own judgment, the president declared, the agreement would mark an epoch in the relations between the United States and Canada and those who opposed the bill in congress would find their prophecies disproved and their fears allayed by its actual operation. Its passage by the Canadian parliament, the last step before it becomes a bond between the two countries, he hopes and believes would be forthcoming.

"The satisfaction that actual experience in its working will give," he said, "we confidently hope will secure its permanence. In a decade its benefits will contribute much to a greater United States and a greater Canada."

## KEEN INTEREST IN CANADA

Western Section Rejoices Over Senate's Action on Pact.

Winnipeg, Man., July 24.—Keen interest was taken in Western Canada in the passage by the United States senate of the Canadian reciprocity bill and the belief is general it will have good effect on legislation at Ottawa. Opposition in the Dominion parliament threatens to prolong discussion all summer, thus making it necessary that the government should appeal to the people. In one way this will be pleasing news to the West, in that it will give that section opportunity to express sentiment towards the measure, which is practically unanimous in the prairie provinces.

## WOOL AND FREE LIST BILLS

Senate Will Vote on Measure Next Thursday and Saturday.

Washington, July 24.—Now that Canadian reciprocity is out of the way the senate will turn its attention to the tariff bills. There are two tariff revision measures pending in the senate that have passed the house.

These are the Underwood wool bill and the farmers' free list bill. Under the terms of the unanimous consent agreement providing for action on pending legislation the wool bill will be voted on Thursday and the farmers' free list bill on Saturday.

## KANSAS CROPS ARE MENACED

Grasshoppers Overrun Western Half of State.

Topeka, Kan., July 24.—A more serious menace to Kansas crops than the six weeks of dry weather has appeared in the grasshoppers that are overrunning the western half of Kansas. The menace has become so serious that the Santa Fe, Rock Island and Union Pacific railways are spreading poisons along their entire rights of way. Farmers are spending thousands of dollars every week spreading poisons and in building "hopper dosers."

## NEWS IN SUNDAY'S PAPERS

New York suffragist advocates plan "self-denial" week beginning Aug. 15 to raise funds necessary for the cause.

Revolutionists in Hayti make gains and threaten to take capital soon. New administration in control of government is imminent.

Claus A. Spreckels tells congressional committee some of the troubles of an independent sugar refinery. Enemies placed dead rats in barrels and put sand in machinery bearings.

Sandstone. Sandstone will absorb a gallon or more of water to the cubic foot of rock.

## CANADIAN TRADE INCREASES

America's Foreign Commerce Shows Marked Growth in Exports.

Washington, July 24.—A review of the foreign trade of the United States during the last twelve months shows a steady increase in commerce with Canada and the Orient.

Exports from the United States to Canada jumped from \$216,000,000 to \$270,000,000 and imports from Canada increased from \$95,000,000 to \$101,000,000. Comparative increases in business with China and Japan are also evident.

This country's foreign commerce for the year showed a marked decrease in imports and an increase in exports. The balance of trade therefore was substantially in favor of the United States and American bankers have enlarged gold balances to draw upon in the European money centers.

Great Britain still is America's best customer. Exports to the United Kingdom in the past year totaled \$576,000,000. Germany stood next with \$287,000,000 and Canada third with \$270,000,000. France was fourth at \$135,000,000.

Johnson's Secretary Dead. Nashville, Tenn., July 24.—Edmund Cooper, secretary to President Andrew Johnson, is dead at the age of ninety at his home in Shelbyville, Tenn.

Howard Pew, Jr., Killed. Atlantic City, N. J., July 24.—Howard Pew, Jr., eleven-year-old son of the noted theatrical manager, was killed by an automobile.

## EIGHT TOLEDO FIREMEN HURT

Damage of \$325,000 Caused by Fire in Factory District.

Toledo, O., July 24.—Eight firemen were painfully injured in a fire which totally destroyed the four buildings of the B. A. Stevens company and eight small cottages and frame store-rooms. Total damage is estimated at \$325,000. The loss on the B. A. Stevens plant is estimated at \$300,000. How the fire started is not known.

HARRY K. THAW.

His Mother Will Make Another Effort to Secure His Release.

## WILL SEEK THAW'S RELEASE

Mother of Slayer Determined to Secure Son's Freedom.

Fishkill Landing, N. Y., July 24.—Determined to secure the release of her son, Harry Thaw, Mrs. Mary Copley Thaw of Pittsburgh, mother of Stanford White's slayer, resumed her residence here.

Another superintendent of the Matteawan asylum for the criminal insane to replace Dr. Lamb, resigned, is to be named during the week. As soon as he assumes his duties Mrs. Thaw will ask for another examination of her son, as she believes he is now sane. She will offer, if he is released in her custody, to engage a guard to accompany him at all times.

RECIPROCITY'S FATE  
DEPENDS ON CANADA

Bill Will Be Ready for President's Signature Wednesday.

Washington, July 24.—The Canadian reciprocity bill, which passed the senate by a vote of 53 to 27, will be ready for the president's signature Wednesday. The action of the senate brings a hard earned victory to President Taft and ends a fight that has been waged for more than a year. The vote of the senate puts the success of the reciprocity program squarely up to the Canadian government.

The law enacted by congress will not go into effect until the Canadian parliament has passed similar legislation, except the paper section, which has been established at once. Thus far the Canadian government has been blocked in its efforts to bring the bill to the vote in the Canadian legislative body. The parliament at Ottawa, like the United States senate, has no closure rule and the opponents of the agreement have succeeded in obstructing progress on the bill by methods similar to those resorted to here.

The government of the Dominion will force the holding of morning, afternoon and evening sessions of parliament in the hope of forcing a vote in this way. If this course fails the government will be obliged to carry the matter to the general elections in the fall. It is therefore not at all unlikely that the law enacted by the United States congress will not go into effect until next winter.

## POSTAL CLERKS' PAY BOOSTED

City Letter Carriers Included in Salary Increases.

Washington, July 24.—Postmaster General Hitchcock ordered promotions for postoffice clerks and city letter carriers which carry increases in salaries approximating \$2,000,000 a year. Orders were also issued for promotions in the railway mail services which will total \$175,000 a year. These increases are in addition to the increases for rural mail carriers totaling \$4,000,000 a year, which became effective July 1.

Four great groups of postal employees have received increases in pay aggregating \$6,000,000 during the current fiscal year. Postmaster General Hitchcock says the increases will be more than offset by increased efficiency of the employees and he believes the advances are warranted by the fact that the postoffice department is now practically on a self-sustaining basis.

## SHOOTS INTO WRECKED CAR

Syrian Becomes Enraged at Action of Motorman.

North Adams, Mass., July 24.—Inflamed at the command of the motorman to get back from the running board and remain in his seat until the car stopped Radio Mallak, a Syrian, twenty-one years of age, suddenly drew an automatic pistol and fired ten shots into a crowded electric car on the Cheshire street railroad, instantly killing the motorman, George E. Hoyt of Pittsfield, and Miss Mary E. Esler, aged twenty-one, of Adams, wounding two women probably fatally and severely injuring three other women.

VOTE WILL END  
EXTRA SESSION

Congress Will Adjourn After Important Ballots.

## QUORUM CANNOT BE RETAINED

Many Senators Have Already Left Washington, and Others Are Preparing to Get Away—Many Measures, Including Bill for Campaign Publicity, Will Remain in Conference.

By ARTHUR W. DUNN.

Washington, July 24.—[Special.]—While there is going to be a great deal of talk during the next few weeks about the extension of the session far beyond the date when a vote is to be taken on the several matters upon which an agreement was reached, it is safe to say that as soon as these matters are out of the way congress will adjourn. It will be impossible to keep a quorum here. Already many senators have left Washington, and others are preparing to get away as soon as a vote is taken on several questions which they regard as important.

As soon as President Taft vetoes the free list bill or the wool bill the Democrats of the house will have an abundant excuse for ceasing to pass tariff bills, and so an adjournment can be taken.

May Remain in Conference.

It is quite certain that a number of important measures will remain in conference. The resolution for the election of senators by direct vote seems to be one of the measures that cannot be agreed upon at this session. If the campaign publicity bill passes it will be amended to cover primaries, and it, too, will remain in conference. The same fate may await the New Mexico and Arizona bill. The reapportionment bill, which increases the number of representatives to 433, seems to be sure to pass.

Curious Tariff Conditions.

If a man should write reams and reams of copy for an American newspaper while abroad and send it to the paper in this country it would be admitted free of duty. If he sent a dozen photographs to illustrate the article he would have to pay 25 per cent of the value of the photographs in duty. No one pretends that such a duty is needed in our scheme of revenue, but it is a protection to American photographers against European photographers.

I was curious enough to ask why American photographers needed that protection and was informed that Europeans finished their photographs better, gave better work and that Americans preferred this better work. Now, why cannot American photographers finish their work as well and give as good satisfaction as the foreigners? As John Sharp Williams says, our whole tariff system is built upon the idea that we are unable to do as good work as foreigners.

Only Bona Fide Contents.

Several times suggestions have been made that contests might be brought in districts which if successful would insure Democratic control of the house in case the presidential election should be thrown into that body. The matter has been put up to Speaker Clark.

"I want nothing but bona fide contests," said Champ. "I do not intend to stand for any contest for the sake of political advantage." And the contests have been prevented.

La Follette Consulted.

Senator Penrose and Senator La Follette have had several very tart exchanges at different times and each expressed disagreeable opinions of the other, but it was noticed that when Penrose wanted to effect an agreement to vote on various bills he consulted La Follette.

In fact, for about the first time since La Follette has become a member of the senate he has been considered a factor in arranging a senate program. He is progressing to the extent of making himself felt by the people who arrange senate business. Heretofore half a dozen men fixed all these matters, and the other senators assented.

High Speeding of Autos.

The death of Senator Gallinger's son in an automobile accident reminded a number of persons that only a short time before the New Hampshire senator severely criticised the high speed of autos. It was during a speech on good roads in the senate, and the assertion was made that the high speed of the machines did more to destroy roads than anything else. Senator Gallinger assented to this and called attention to the fact that not only the roads suffered, but that human life was endangered by the reckless manner in which automobiles were run. He suggested a speed limit.

Reed's Illustration.

Speaking of the fear expressed by merchants in small towns that they would be injured by a parcels post Senator Reed of Missouri remarked: "If these flying machines are perfected so that the farmer can run to town in fifteen or twenty minutes and bring home his purchases they will hurt the country merchant. That which will bring the farmer in closer touch with his market and his supplies must be for the betterment of the greatest number of people. Improved transportation is progress and will continue in spite of all opposition."

Glycerin.

Glycerin was discovered in 1779 and was then known as the "sweet principle of fats."

## DRIVER KILLED ON TRACK

French Auto Race Marred by Fatal Accident.

Lemans, France, July 24.—The Grand Prix de France, which was run here under the auspices of the Auto club of Sarthe, was marred by a fatal accident. The axle of the machine driven by Maurice Fournier, brother of the noted automobile racer, collapsed when the car was speeding more than a mile a minute in an endeavor to overtake the French driver, Hemery. Fournier was crushed to death beneath the car and his mechanism was hurled a hundred feet into a field and seriously injured.

BLUE RIVER RISES  
TWENTY-SIX FEET

Floods Cause Heavy Property Loss in Nebraska.

Omaha, July 24.—Reports received here from Gage and Johnson counties, in the southeast portion of the state, indicate that section was visited by one of the heaviest rainfalls ever recorded in the vicinity.

From Beatrice comes the report that the government gauge recorded a fall of eight inches of rain and that the Blue river rose a total of twenty-six feet. The Blue river rose at the rate of three feet an hour, submerging the railroad yards and endangering the residence and business districts, in which portion of the town considerable damage was done by the flood.

Women and children were rescued from the tops of box cars, boats being used. As far as can be learned no lives were lost. All the railroads were hard hit. The Burlington bridge over Bear creek and nearly all the trackage in the Burlington, Rock Island and Union Pacific yards at Beatrice was washed out or inundated. For twelve miles, between Dewitt and Beatrice, most of the track is gone. No trains are running in or out of Beatrice and it is expected several days will elapse before the service can be resumed.

At Tecumseh, in Johnson county, four inches of rain fell in four hours. During the same time over six inches fell at Crab Orchard and five and one-half inches at Elk Creek.

Near Crab Orchard two miles of the track of the Nebraska City-Heldredge line of the Burlington road is washed out. From all portions of the Blue valley come reports of heavy property loss. At Holmesville, seven miles southeast of Beatrice, six feet of water is running through the depot. The Beatrice electric light plant is shut down and the waterworks plant threatened.

Minnesota Bank Statistics.

St. Paul, July 24.—In ten years the number of state banks in Minnesota has increased from 194 in November, 1900, to 712 on June 7, 1911, and the resources have increased in these banks from \$39,952,968.78 in 1900 to \$129,574,307.31, according to data compiled by State Immigration Commissioner George Walsh.

Two Autoists May Die.

Cincinnati, July 24.—Dr. and Mrs. W. L. Miller of this city, the latter a daughter of Colonel C. B. Wing, prominent paper manufacturer, probably were fatally injured at Cleves, O., when their automobile went over a seventy-five foot embankment on the Graydon road.

Obliging.

Excited Author (rushing behind the scenes)—Why are you cutting out the second and third acts of my play? Manager—I am not cutting anything out. I'm merely varying the order of the acts. Several influential persons in the audience have asked me if it would not be possible to have the hero die in the next act.—Chicago Tribune.

Philosophy.

Learn to be pleased with everything—with wealth, so far as it makes us of benefit to others; with poverty, for not having much to care for, and with obscurity, for being unenvied.—Plutarch.

TEXANS DEFEAT  
DRY AMENDMENTUNDERWOOD MAY  
BE CANDIDATE

Alabama Delegation Starts Presidential Boom.

## DEMOCRATS POINT TO RECORD

Call Attention to How the Chairman of the Ways and Means Committee Put Canadian Reciprocity, Wool and Free List Bills Through the House and Assert That He Has Sided Up Generally as a Leader of National Proportions.

Washington, July 24.—A new Democratic presidential boom has appeared in town. It involves Representative Oscar W. Underwood of Alabama, chairman of the committee on ways and means. This boom has the backing of the Alabama delegation in congress, each and every man of whom declares that it will grow to formidable proportions before many days have passed.

According to statements made orders have gone out that Alabama's delegation in the Democratic national convention of 1912 shall be instructed for Mr. Underwood. To the objection that Mr. Underwood comes from a state too far south to be seriously considered for the Democratic presidential nomination his friends reply that he was born in Kentucky and spent part of his young manhood in Minnesota.

Democrats in Washington say that Mr. Underwood has made a fine record since the party came into control of the house. They point out that he put the Canadian agreement through the house in the form in which it came from the hand of the president and that he passed in jig time a wool bill and a free list bill. In addition his friends declare Mr. Underwood has sized up generally as a leader of national proportions and they believe that if a Democratic convention should decide to name a Southern man the Alabama would fill the bill.

Close Friend of Speaker Clark.

Underwood is a close personal and political friend of Speaker Champ Clark. While Clark is a candidate for the presidential nomination he has made no formal announcement, owing to a situation in Missouri that is proving embarrassing to Clark followers. In a moment of thoughtlessness a couple of years ago the Missouri Democrats in convention assembled endorsed former Governor Joseph W. Folk for the presidency. At that time Mr. Clark was a candidate for the speakership and had no thought of the presidency. He presided in the convention that endorsed Mr. Folk. Accordingly Mr. Clark does not deem it proper to make a formal announcement of his intentions. Mr. Clark's friends are busy, however. There is a suspicion here that the Underwood candidacy has been launched in the interest of Mr. Clark.

There will be a loud noise out in Lincoln, Neb., when it becomes known that the Alabama delegation will insist on Mr. Underwood being endorsed for the presidential nomination. Mr. Underwood is one of the best aversors of William Jennings Bryan.

When the wool bill was under consideration by the ways and means committee Mr. Bryan stirred up a great deal of trouble by urging his friends to stand for free wool. Leader Underwood declared for a duty on wool and he carried the day, whereupon Mr. Bryan gave out a statement in which he declared in substance that Leader Underwood had "sold out" to the protected interests.

## MEMORIAL DAY FOUNDER DEAD

Mrs. Sue L. Vaughn, a Descendant of John Adams.

Washington, July 24.—The woman credited with having first expressed the idea of a general Memorial day, Mrs. Sue Landon Vaughn, is dead here at the home of the Eastern Star, a Masonic order on which she was dependent. She was a descendant of John Adams, the second president of the United States. On April 26, 1865, she led some Southern women in strewing with flowers the Confederate graves in Vicksburg and the date and custom were perpetuated in the South. Three years later May 30 was adopted through the North as Memorial day.

Mrs. Vaughn was of distinguished ancestry and was the wife of Judge J. H. Vaughn of San Francisco. The earthquake there destroyed the family property and his subsequent death left Mrs. Vaughn without resources.

Cincinnati Paper Sold.

Cincinnati, July 24.—The Commercial Tribune, a morning newspaper, with all its equipment, was sold at sheriff's sale to Francis T. Homer, a Baltimore attorney, for \$420,000.

American Artist Dies in Rome.

Rome, July 24.—C. W. Stetson, the American artist, who has resided in Rome for some years, is dead here following an operation. He was born at Tiverton, R. I., in 1858.

Statewide Prohibition Loses by Very Small Margin.

## GREAT INTEREST IN RESULT

Contest the Closest in the History of the State, Returns Being Not Yet Complete—While the Indications Are That the Constitutional Amendment Has Been Beaten the Prohibitionists Claim the Victory and Charge Wholesale Frauds.

Dallas, Tex., July 24.—Returns from Saturday's statewide prohibition election give the anti-prohibitionists a lead of 3,928.

Returns received by the Galveston-Dallas News give the prohibition amendment to the state constitution 219,825 votes and against the amendment 222,535 votes, a majority of 2,710 votes against the amendment.

The contest is the closest in the history of the state. Tens of thousands of people collected around bulletin boards watching the returns. It is practically impossible to forecast what the final returns will show. The "antis" are claiming a victory, but the prohibition leaders are confident.

About 85 per cent of the estimated total vote cast is accounted by the returns. The counties and boxes still missing are widely distributed over the state. Some of them are admittedly prohibition and others certain anti-prohibition. None of them are very large. The reports in hand include practically complete returns from every large city and county in the state.

## BOTH CLAIM THE VICTORY

Leaders for and Against Prohibition Issue Statements.

Houston, Tex., July 24.—The following statement was given out by T. H. Ball, chairman of the statewide prohibition executive committee:

"In spite of wholesale fraud in various sections of the state, in poll tax payments by liquor interests and a practically solid Mexican vote and 85 per cent of the negro vote against the prohibition amendment, prohibition, in my best judgment, has been carried by not less than 10,000 majority."

J. F. Wolters, president of the anti-statewide amendment committee, issued this statement:

"Almost complete returns indicate beyond question that we have won by a good majority. It is absolutely necessary, however, to guard closely the boxes and returns so that the actual results will be protected everywhere."

## LIVELY SESSION PROBABLE

Nebraska Republican Convention Convened Tomorrow.

Lincoln, Neb., July 24.—The indications now are that the Republican state convention which will meet here Tuesday will not prove the featureless, cut and dried affair that has been looked for. There are no nominations to be made and the election to follow has little political interest, only judicial offices being filled, but the questions that have lately been dividing the Republican party in the nation seem certain to come up in forms that cannot be ignored.

The question of Mr. Taft's candidacy for re-election and that of Canadian reciprocity, with which it is coupled, which have already been brought to pointed discussion by the acts of certain leaders of the various factions of the party in the state, can hardly be kept out of the convention, whose only purpose is to define the principles on which the coming campaign is to be fought.

## ASIATIC CHOLERA AT BOSTON

Woman Lodging House Keeper Dies of the Disease.

Boston, July 24.—Asiatic cholera has reached Boston and caused one death, while two foreign sailors, who are believed to have brought the dread disease here, after being taken ill disappeared and their whereabouts unknown, according to a statement given out officially by Chairman Samuel H. Durgin of the Boston board of health.

The cholera victim was Mrs. Tamasino Mastrodonico, who died at the detention hospital on Gallipoli island Thursday. Mrs. Mastrodonico took in to her home as lodgers a few weeks ago two sailors who were members of the crew of a steamer supposed to have sailed from an Italian port. The sailors subsequently were taken ill and disappeared. Efforts are being made to locate them.

Regarding Reciprocity.

## GRATEFUL FOR DEMOCRATIC AID

Chief Executive Freely Acknowledges That Measure Would Have Failed but for the Support of the Democrats and Says They Did Not Play Politics but Followed the Dictates of a Higher Policy—Generous Praise for Framers.

Beverly, Mass., July 24.—In the first statement he has made since the passage of the reciprocity bill by the senate President Taft, at the summer White House, freely acknowledged that his long, hard campaign in behalf of that measure would have proved unavailing if the Democrats had not helped him. Without such aid, the president declared, reciprocity would have been "impossible."

"The Democrats did not 'play politics' in the colloquial sense in which those words are used," said the president, "but followed the dictates of a higher policy."

For Secretary Knox and his assistants in the state department who conducted the negotiations and framed the pact the president said more than a word of praise. Those Republicans, he said, who fought for reciprocity, "and some of whose votes were necessary to the passage of the bill, may properly enjoy mutual felicitations on a work well done."

In his own judgment, the president declared, the agreement would mark an epoch in the relations between the United States and Canada and those who opposed the bill in congress would find their prophecies disproved and their fears allayed by its actual operation. Its passage by the Canadian parliament, the last step before it becomes a bond between the two countries, he hopes and believes would be forthcoming.

"The satisfaction that actual experience in its working will give," he said, "we confidently hope will secure its permanence. In a decade its benefits will contribute much to a greater United States and a greater Canada."

## KEEN INTEREST IN CANADA

Western Section Rejoices Over Senate's Action on Pact.

Winnipeg, Man., July 24.—Keen interest was taken in Western Canada in the passage by the United States senate of the Canadian reciprocity bill and the belief is general it will have good effect on legislation at Ottawa. Opposition in the Dominion parliament threatens to prolong discussion all summer, thus making it necessary that the government should appeal to the people. In one way this will be pleasing news to the West, in that it will give that section opportunity to express sentiment towards the measure, which is practically unanimous in the prairie provinces.

## WOOL AND FREE LIST BILLS

Senate Will Vote on Measure Next Thursday and Saturday.

Washington, July 24.—Now that Canadian reciprocity is out of the way the senate will turn its attention to the tariff bills. There are two tariff revision measures pending in the senate that have passed the house.

These are the Underwood wool bill and the farmers' free list bill. Under the terms of the unanimous consent agreement providing for action on pending legislation the wool bill will be voted on Thursday and the farmers' free list bill on Saturday.

## KANSAS CROPS ARE MENACED

Grasshoppers Overrun Western Half of State.

Topeka, Kan., July 24.—A more serious menace to Kansas crops than the six weeks of dry weather has appeared in the grasshoppers that are overrunning the western half of Kansas. The menace has become so serious that the Santa Fe, Rock Island and Union Pacific railways are spreading poisons along their entire rights of way. Farmers are spending thousands of dollars every week spreading poisons and in building "hopper dosers."

## NEWS IN SUNDAY'S PAPERS

## WILL SEEK THAW'S RELEASE

Mother of Slayer Determined to Secure Son's Freedom.

Fishkill Landing, N. Y., July 24.—Determined to secure the release of her son, Harry Thaw, Mrs. Mary Copley Thaw of Pittsburgh, mother of Stanford White's slayer, resumed her residence here.

Another superintendent of the Matteawan asylum for the criminal insane to replace Dr. Lamb, resigned, is to be named during the week. As soon as he assumes his duties Mrs. Thaw will ask for another examination of her son, as she believes he is now sane. She will offer, if he is released in her custody, to engage a guard to accompany him at all times.

RECIPROCITY'S FATE  
DEPENDS ON CANADA

Bill Will Be Ready for President's Signature Wednesday.

Washington, July 24.—The Canadian reciprocity bill, which passed the senate by a vote of 53 to 27, will be ready for the president's signature Wednesday. The action of the senate brings a hard earned victory to President Taft and ends a fight that has been waged for more than a year. The vote of the senate puts the success of the reciprocity program squarely up to the Canadian government.

The law enacted by congress will not go into effect until the Canadian parliament has passed similar legislation, except the paper section, which has been established at once. This far the Canadian government has been blocked in its efforts to bring the bill to the vote in the Canadian legislative body. The parliament at Ottawa, like the United States senate, has no cloture rule and the opponents of the agreement have succeeded in obstructing progress on the bill by methods similar to those resorted to here.

The government of the Dominion will force the holding of morning, afternoon and evening sessions of parliament in the hope of forcing a vote in this way. If this course fails the government will be obliged to carry the matter to the general elections in the fall. It is therefore not at all unlikely that the law enacted by the United States congress will not go into effect until next winter.

## POSTAL CLERKS' PAY BOOSTED

City Letter Carriers Included in Salary Increases.

Washington, July 24.—Postmaster General Hitchcock ordered promotions for postoffice clerks and city letter carriers which carry increases in salaries approximating \$2,000,000 a year. Orders were also issued for promotions in the railway mail services which will total \$175,000 a year. These increases are in addition to the increases for rural mail carriers totaling \$4,000,000 a year, which became effective July 1.

Four great groups of postal employees have received increases in pay aggregating \$6,000,000 during the current fiscal year. Postmaster General Hitchcock says the increases will be more than offset by increased efficiency of the employees and he believes the advances are warranted by the fact that the postoffice department is now practically on a self-sustaining basis.

## SHOOTS IN WOUNDED CAR

Syrian Becomes Enraged at Action of Motorman.

North Adams, Mass., July 24.—Inflamed at the command of the motorman to get back from the running board and remain in his seat until the car stopped Radio Mallak, a Syrian, twenty-one years of age, suddenly drew an automatic pistol and fired ten shots into a crowded electric car on the Cheshire street railroad, instantly killing the motorman, George E. Hoyt of Pittsfield, and Miss Martha Esler, aged twenty-one, of Adams, wounding two women probably fatally and severely injuring three other women.

VOTE WILL END  
EXTRA SESSION

Congress Will Adjourn After Important Ballots.

## QUORUM CANNOT BE RETAINED

Many Senators Have Already Left Washington, and Others Are Preparing to Go Away—Many Measures, Including Bill For Campaign Publicity, Will Remain In Conference.

By ARTHUR W. DUNN.

Washington, July 24.—[Special.]—While there is going to be a great deal of talk during the next few weeks about the extension of the session far beyond the date when a vote is to be taken on the several matters upon which an agreement was reached, it is safe to say that as soon as these matters are out of the way congress will adjourn. It will be impossible to keep a quorum here. Already many senators have left Washington, and others are preparing to get away as soon as a vote is taken on several questions which they regard as important.

As soon as President Taft vetoes the free list bill or the wool bill the Democrats of the house will have an abundant excuse for ceasing to pass tariff bills, and so an adjournment can be taken.

May Remain In Conference.

It is quite certain that a number of important measures will remain in conference. The resolution for the election of senators by direct vote seems to be one of the measures that cannot be agreed upon at this session. If the campaign publicity bill passes it will be amended to cover primaries, and it, too, will remain in conference. The same fate may await the New Mexico and Arizona bill. The reappointment bill, which increases the number of representatives to 433, seems to be sure to pass.

Curious Tariff Conditions.

If a man should write reams and reams of copy for an American newspaper while abroad and send it to the paper in this country it would be admitted free of duty. If he sent a dozen photographs to illustrate the article he would have to pay 25 per cent of the value of the photographs as duty. No one pretends that such a duty is needed in our scheme of revenue, but it is a protection to American photographers against European photographers.

I was curious enough to ask why American photographers needed that protection and was informed that Europeans finished their photographs better, gave better work and that Americans preferred this better work. Now, why cannot American photographers finish their work as well and give as good satisfaction as the foreigners? As John Sharp Williams says, our whole tariff system is built upon the idea that we are unable to do as good work as foreigners.

Only Fona Fide Contests.

Several times suggestions have been made that contests might be brought in districts which if successful would insure Democratic control of the house in case the presidential election should be thrown into that body. The matter has been put up to Speaker Clark. "I want nothing but bona fide contests," said Champ. "I do not intend to stand for any contest for the sake of political advantage." And the contests have not been presented.

La Follette Consulted.

Senator Penrose and Senator La Follette have had several very tart exchanges at different times and each expressed disagreeable opinions of the other, but it was noticed that when Penrose wanted to effect an agreement to vote on various bills he consulted La Follette.

In fact, for about the first time since La Follette has become a member of the senate he has been considered a factor in arranging a senate program. He is progressing to the extent of making himself felt by the people who arrange senate business. Heretofore half a dozen men fixed all these matters, and the other senators assented.

High Speeding of Autos.

The death of Senator Gallinger's son in an automobile accident reminded a number of persons that only a short time before the New Hampshire senator severely criticised the high speed of autos. It was during a speech on good roads in the senate, and the assertion was made that the high speed of the machines did more to destroy roads than anything else. Senator Gallinger assented to this and called attention to the fact that not only the roads suffered, but that human life was endangered by the reckless manner in which automobiles were run. He suggested a speed limit.

Reed's Illustration.

Speaking of the fear expressed by merchants in small towns that they would be injured by a parcels post Senator Reed of Missouri remarked: "If these flying machines are perfected so that the farmer can run to town in fifteen or twenty minutes and bring home his purchases they will hurt the country merchant. That which will bring the farmer in closer touch with his market and his supplies must be for the betterment of the greatest number of people. Improved transportation is progress and will continue in spite of all opposition."

Glycerin.

Glycerin was discovered in 1779 and was then known as the "sweet principle of fats."

By American Press Association.

## DRIVER KILLED ON TRACK

French Auto Race Marred by Fatal Accident.

Lemans, France, July 24.—The Grand Prix de France, which was run here under the auspices of the Auto club of Sarthe, was marred by a fatal accident. The axle of the machine driven by Maurice Fournier, brother of the noted automobile racer, collapsed when the car was speeding more than a mile a minute in an endeavor to overtake the French driver, Hemery. Fournier was crushed to death beneath the car and his mechanic was hurled a hundred feet into a field and seriously injured.

BLUE RIVER RISES  
TWENTY-SIX FEET

Floods Cause Heavy Property Loss in Nebraska.

Omaha, July 24.—Reports received here from Gage and Johnson counties, in the southeast portion of the state, indicate that section was visited by one of the heaviest rainfalls ever recorded in the vicinity.

From Beatrice comes the report that the government gauge recorded a fall of eight inches of rain and that the Blue river rose a total of twenty-six feet. The Blue river rose at the rate of three feet an hour, submerging the railroad yards and endangering the residence and business districts, in which portion of the town considerable damage was done by the flood.

Women and children were rescued from the tops of box cars, boats being used. As far as can be learned no lives were lost.

All the railroads were hard hit. The Burlington bridge over Bear creek and nearly all the trackage in the Burlington, Rock Island and Union Pacific yards at Beatrice was washed out or inundated. For twelve miles, between Dewitt and Beatrice, most of the track is gone. No trains are running in or out of Beatrice and it is expected several days will elapse before the service can be resumed.

At Tecumseh, in Johnson county, during the same time over six inches fell at Crab Orchard and five and one-half inches at Elk Creek.

Near Crab Orchard two miles of the track of the Nebraska City-Holdrege line of the Burlington road is washed out.

From all portions of the Blue valley come reports of heavy property loss. At Holmesville, seven miles southeast of Beatrice, six feet of water is running through the depot. The Beatrice electric light plant is shut down and the waterworks plant threatened.

Minnesota Bank Statistics.

St. Paul, July 24.—In ten years the number of state banks in Minnesota has increased from 194 in November, 1900, to 712 on June 7, 1911, and the resources have increased in these banks from \$39,952,908.78 in 1900 to \$129,574,397.31, according to data compiled by State Immigration Commissioner George Walsh.

Two Autoists May Die.

Cincinnati, July 24.—Dr. and Mrs. W. L. Miller of this city, the latter a daughter of Colonel C. B. Wing, prominent paper manufacturer, probably were fatally injured at Cleves, O., when their automobile went over a seventy-five foot embankment on the Graydon road.

Obliging.

Excited Author rushing behind the scenes—Why are you cutting out the second and third acts of my play? Manager—I am not cutting anything out. I'm merely varying the order of the acts. Several influential persons in the audience have asked me if it would not be possible to have the hero die in the next act.—Chicago Tribune.

Philosophy.

Learn to be pleased with everything—with wealth, so far as it makes us of benefit to others; with poverty, for not having much to care for, and with obscurity, for being unenvied.—Plutarch.

TEXANS DEFEAT  
DRY AMENDMENTUNDERWOOD MAY  
BE CANDIDATE

Alabama Delegation Starts Presidential Boom.

## DEMOCRATS POINT TO RECORD

Call Attention to How the Chairman of the Ways and Means Committee Put Canadian Reciprocity, Wool and Free List Bills Through the House and Assert That He Has Sided Up Generally as a Leader of National Proportions.

Washington, July 24.—A new Democratic presidential boom has appeared in town. It involves Representative Oscar W. Underwood of Alabama, chairman of the committee on ways and means. This boom has the backing of the Alabama delegation in congress, each and every man of whom declares that it will grow to formidable proportions before many days have passed.

According to statements made orders have gone out that Alabama's delegation in the Democratic national convention of 1912 shall be instructed for Mr. Underwood. To the objection that Mr. Underwood comes from a state too far south to be seriously considered for the Democratic presidential nomination his friends reply that he was born in Kentucky and spent part of his young manhood in Minnesota.

Democrats in Washington say that Mr. Underwood has made a fine record since the party came into control of the house.

They point out that he put the Canadian agreement through the house in the form in which it came from the hand of the president and that he passed in jig time a wool bill and a free list bill. In addition his friends declare Mr. Underwood has sided up generally as a leader of national proportions and they believe that if a Democratic convention should decide to name a Southern man the Alabama member will fill the bill.

Close Friend of Speaker Clark.

Underwood is a close personal and political friend of Speaker Champ Clark. While Clark is a candidate for the presidential nomination he has made no formal announcement, owing to a situation in Missouri that is proving embarrassing to Clark followers. In a moment of thoughtlessness a couple of years ago the Missouri Democrats in convention assembled endorsed former Governor Joseph W. Folk for the presidency. At that time Mr. Clark was a candidate for the speakership and had no thought of the presidency. He presided in the convention that endorsed Mr. Folk. Accordingly Mr. Clark does not deem it proper to make a formal announcement of his intentions. Mr. Clark's friends are busy, however. There is a suspicion here that the Underwood candidacy has been launched in the interest of Mr. Clark.

There will be a loud noise out in Lincoln, Neb., when it becomes known that the Alabama delegation will insist on Mr. Underwood being endorsed for the presidential nomination. Mr. Underwood is one of the pet aversions of William Jennings Bryan.

When the wool bill was under consideration by the ways and means committee Mr. Bryan stirred up a great deal of trouble by urging his friends to stand for free wool. Leader Underwood declared for a duty on wool and he carried the day, whereupon Mr. Bryan gave out a statement in which he declared in substance that Leader Underwood had "sold out" to the protected interests.

## MEMORIAL DAY FOUNDER DEAD

Mrs. Sue L. Vaughn, a Descendant of John Adams.

Washington, July 24.—The woman credited with having first expressed the idea of a general Memorial day, Mrs. Sue Landon Vaughn, is dead here at the home of the Eastern Star, a Masonic order on which she was dependent. She was a descendant of John Adams, the second president of the United States. On April 26, 1865, she led some Southern women in strewing with flowers the Confederate graves in Vicksburg and the date and custom were perpetuated in the South. Three years later May 30 was adopted through the North as Memorial day. Mrs. Vaughn was of distinguished ancestry and was the wife of Judge J. H. Vaughn of San Francisco. The earthquake there destroyed the family property and his subsequent death left Mrs. Vaughn without resources.

Cincinnati Paper Sold.

Cincinnati, July 24.—The Commercial Tribune, a morning newspaper, with all its equipment, was sold at sheriff's sale to Francis T. Homer, a Baltimore attorney, for \$420,000.

American Artist Dies in Rome.

Rome, July 24.—C. W. Stetson, the American artist, who has resided in Rome for some years, is dead here following an operation. He was born at Tiverton, R. I., in 1858.

Statewide Prohibition Loses by Very Small Margin.

## GREAT INTEREST IN RESULT

Contest the Closest in the History of the State, Returns Being Not Yet Complete—While the Indications Are That the Constitutional Amendment Has Been Beaten the Prohibitionists Claim the Victory and Charge Wholesale Frauds.

Dallas, Tex., July 24.—Returns from Saturday's statewide prohibition election give the anti-prohibitionists a lead of 3,928.

Returns received by the Galveston-Dallas News give the prohibition amendment to the state constitution 219,825 votes and against the amendment 222,535 votes, a majority of 2,710 votes against the amendment.

The contest is the closest in the history of the state. Tens of thousands of people collected around bulletin boards watching the returns. It is practically impossible to forecast what the final returns will show. The "antis" are claiming a victory, but the prohibition leaders are confident.

About 85 per cent of the estimated total vote cast is accounted by the returns. The counties and boxes still missing are widely distributed over the state. Some of them are admittedly prohibition and others certain anti-prohibition. None of them are very large. The reports in hand include practically complete returns from every large city and county in the state.

## BOTH CLAIM THE VICTORY

Leaders for and Against Prohibition Issue Statements.

Houston, Tex., July 24.—The following statement was given out by T. H. Ball, chairman of the statewide prohibition executive committee:

"In spite of wholesale fraud in various sections of the state, in poll tax payments by liquor interests and a practically solid Mexican vote and 85 per cent of the negro vote against the prohibition amendment, prohibition, in my best judgment, has been carried by not less than 10,000 majority."

J. F. Wolters, president of the anti-statewide amendment committee, issued this statement:

"Almost complete returns indicate beyond question that we have won by a good majority. It is absolutely necessary, however, to guard closely the boxes and returns so that the actual results will be protected everywhere."

## LIVELY SESSION PROBABLE

Nebraska Republican Convention Convenes Tomorrow.

Lincoln, Neb., July 24.—The indications now are that the Republican state convention which will meet here Tuesday will not prove the featureless, cut and dried affair that has been looked for. There are no nominations to be made and the election to follow has little political interest, only judicial offices being filled, but the questions that have lately been dividing the Republican party in the nation seem certain to come up in forms that cannot be ignored.

The question of Mr. Taft's candidacy for re-election and that of Canadian reciprocity, with which it is coupled, which have already been brought to pointed discussion by the acts of certain leaders of the various factions of the party in the state, can hardly be kept out of the convention, whose only purpose is to define the principles on which the coming campaign is to be fought.

## ASIATIC CHOLERA AT BOSTON

Woman Lodging House Keeper Dies of the Disease.

Boston, July 24.—Asiatic cholera has reached Boston and caused one death, while two foreign sailors, who are believed to have brought the dread disease here, after being taken ill disappeared and their whereabouts is unknown, according to a statement given out officially by Chairman Samuel H. Durgin of the Boston board of health.

The cholera victim was Mrs. Tamasino Mastrodonico, who died at the detention hospital on Gallups Island Thursday. Mrs. Mastrodonico took into her home as lodgers a few weeks ago two sailors who were members of the crew of a steamer supposed to have sailed from an Italian port. The sailors subsequently were taken ill and disappeared. Efforts are being made to locate them.

## HEPBURN IS WILEY'S SCOUT

Former Iowa Representative Helped to Draft Pure Food Law.

Washington, July 24.—William P. Hepburn, the Iowa congressman whom Dr. Wiley has picked as his counsel in his fight against the men who seek to oust him from his position as chief of the bureau of chemistry in the department of agriculture, is thoroughly conversant with the facts in the case, having helped in drafting the pure food law and fought for its passage through congress.

MR. AL. MRAZ Sings

"Dreaming of You"

PIANO SELECTIONS Rendered By Miss Hazel Treglawny

The proposition of the U. S. senate to limit the price candidates may pay for votes to 10 cents a piece will meet with more favor among the candidates than it will with those who have votes to sell.

Timothy hay brings a cent a pound in Kansas City and the men who need it for their stock are glad to get it at that price. A farmer with potatoes and timothy hay to market this fall ought to feel nearly like a winner.

If you miss your Dispatch, register a kick at the office at once, don't wait until you have missed it for three or four times. The carriers are paid for delivering the paper to every subscriber and it will be a favor to the paper if complaints are entered where delinquencies actually happen.

Linn Haynes has more fun with the members of the legislature that any one we know of, besides he makes a nice bit of money from the sale of his history of the doings of the law makers in book form, and it is said that even members of the legislature buy them to see what they have actually done—according to Haynes.

The LaFollette machine is beginning to reach out into the local fields and it is not hard to discover who is behind the movement. The Sixth district is to be the battle ground during the next presidential campaign for control of the state delegation and thus far in advance the movement is being directed from the far east.

The Royaltan Banner sees no reason why "our own Charley" should not get into the U. S. senatorial race, and thinks it would develop an interesting condition in the Sixth district. Just what is meant by the statement that "In fact it is Mr. Lindbergh's duty to leave this opening for a rich bit of political fun," is not apparent unless the Banner is hinting that the congressman should leave the congressional plum for others to fight over.

The Little Falls Herald thinks that if the voters of this state really are for LaFollette, money, though powerful, will not change them, and precedes it with the statement that "It is claimed that there is plenty of money on tap already to prevent LaFollette getting any delegates in Minnesota." If the Wisconsin statesman fails to land the Minnesota delegation will it be argued that the voters were not really for him or that they preferred money?

The Cass Lake Times editor has just celebrated his 80th birthday and announces that he takes as great delight in the daily round of work as he did fifty years ago. Judge Frank lives certainly wears as vigorous a pen and takes as much interest in the upbuilding of his home town and the surrounding country in the north central part of the state as any man in the newspaper ranks. May he reach the 100 mark and enjoy good health during all the years.

The Staples Headlight shivers when it thinks of the rapid growth of the three big cities of the state, and Jim Hill's prediction for a million population for the twin cities within twelve years if Canadian reciprocity is realized, gives it a real chill. James now has a chance to make good with his prediction but we trust that with the coming of this vast concourse of people we will not be visited with the ills that the Staples editor predicts.

Out of three new members to be elected on the school board in A. K. N. at the annual election just held, two were ladies, and they drew the long year terms at that. Voters are partial to the ladies in school elections and it would probably be to the advantage of school boards and educational institutions if more women of ability would take an interest in the affairs connected therewith and would willingly allow their names to be used in connection with the elective offices.

The Brainerd postoffice has been designated by the postmaster general to be a postal savings depository beginning August 19th. It is expected that the postoffice will have been transferred to the new federal building at the corner of Sixth and Maple streets by that time and that the new quarters will be ample to provide handsomely for all branches of business transacted by the government in an office of the second class. The addition of the postal savings depository will be appreciated by the people of this city and the fact that admirable quarters have been provided for the convenience of the public for the transaction of the ordinary postoffice business as well as the savings department is something every citizen should appreciate.

The man who is taking a newspaper out of the postoffice, receiving it from a carrier or any other means who by he accepts the same is responsible for the subscription price of that publication, according to the court of appeals in Missouri where a decision has just been rendered. O. D. Austin, a Butler publisher, sent his paper to Charles Burge and the latter paid for it twice and then refused to pay again. He said he ordered it stopped. But the court of appeals holds that mere acceptance of the paper created a liability. It adds: "The preparation and publication of a newspaper involves much mental and physical labor as well as an outlay of money. One who accepts the paper by continuously taking it from the postoffice receives a benefit and a pleasure arising from such labor and expenditures as fully as if he

MONDAY, JULY 24, 1911.

A floater is not of much account, it is the fish that gets to the head of the stream against the current that is the live one.

One hundred and forty million water melons will be shipped from Texas to the northern markets. That's nearly a melon apiece.

If any state in the Union has finer weather to offer than has been furnished by Minnesota during the past season we would like to be put wise.

The high price of potatoes is causing a smile to cover the faces of those Minnesota farmers who have a good acreage of the tubers fast maturing.

The superintendent of the Red Wing training school seems to be getting some very bad jolts, and many a man in his position would have resigned long ago.

"Most of us have not got automobiles yet, but we have other debts," remarks the Hibbing Tribune. There's the rub, it is these other debts that will not admit of increasing the liabilities.

It is the duty  
of every man  
to protect his  
Family  
with a  
BANK  
account

If you have a little daughter, bank for her right now three dollars for her first year of life, six dollars for her second, nine dollars for her third, and so on until you catch up to her present age; and then on her next birthday, bank to her credit three dollars for each year of her age and keep this up until she is 21. She'll then have nearly A THOUSAND DOLLARS and you'll never miss the money. DO THIS; it's your DUTY.

opposite the Post Office.

Entered at the post office at Brainerd,  
Minn., as second class matter

MONDAY, JULY 24, 1911.

A floater is not of much account.  
It is the fish that gets to the head of  
the stream against the current that  
is the live one.

One hundred and forty million  
water melons will be shipped from  
Texas to the northern markets.  
That's nearly a melon apiece.

If any state in the Union has finer  
weather to offer than has been fur-  
nished by Minnesota during the past  
season we would like to be put wise.

The high price of potatoes is caus-  
ing a smile to cover the faces of those  
Minnesota farmers who have a good  
acreage of the tubers fast maturing.

The superintendent of the Red  
Wing training school seems to be  
getting some very bad jolts, and many  
a man in his position would have re-  
signed long ago.

"Most of us have not got automob-  
iles yet, but we have other debts,"  
remarks the Hibbing Tribune.  
There's the rub, it is these other debts  
that will not admit of increasing the  
liabilities.

The proposition of the U. S. sen-  
ate to limit the price candidates may  
pay for votes to 10 cents a piece will  
meet with more favor among the  
candidates than it will with those  
who have votes to sell.

Timothy hay brings a cent a pound  
in Kansas City and the men who  
need it for their stock are glad to  
get it at that price. A farmer with  
potatoes and timothy hay to market  
this fall ought to feel nearly like a  
winner.

If you miss your Dispatch, register  
a kick at the office at once, don't wait  
until you have missed it for three or  
four times. The carriers are paid  
for delivering the paper to every sub-  
scriber and it will be a favor to the  
paper if complaints are entered where  
delinquencies actually happen.

Linn Haynes has more fun with the  
members of the legislature that any  
one we know of, besides he makes a  
nice bit of money from the sale of his  
history of the doings of the law  
makers in book form, and it is said  
that even members of the legislature  
buy them to see what they have actu-  
ally done—according to Haynes.

The LaFollette machine is begin-  
ning to reach out into the local fields  
and it is not hard to discover who  
is behind the movement. The Sixth  
district is to be the battle ground  
during the next presidential campaign  
for control of the state delegation  
and thus far in advance the movement  
is being directed from the far east.

The Royaltan Banner sees no reason  
why "our own Charley" should  
not get into the U. S. senatorial race,  
and thinks it would develop an in-  
teresting condition in the Sixth dis-  
trict. Just what is meant by the  
statement that "In fact it is Mr. Lind-  
bergh's duty to leave this opening  
for a rich bit of political fun," is not  
apparent unless the Banner is hint-  
ing that the congressman should  
leave the congressional plum for others  
to fight over.

The Little Falls Herald thinks that  
if the voters of this state really are  
for LaFollette, money, though power-  
ful, will not change them, and  
precedes it with the statement that  
"It is claimed that there is plenty of  
money on tap already to prevent La-  
Follette getting any delegates in Min-  
nesota." If the Wisconsin statesman  
fails to land the Minnesota dele-  
gation will it be argued that the  
voters were not really for him or  
that they preferred money?

The Cass Lake Times editor has  
just celebrated his 80th birthday  
and announces that he takes as great  
delight in the daily round of work  
as he did fifty years ago. Judge  
Frank Ives certainly wields as vig-  
orous a pen and takes as much in-  
terest in the upbuilding of his home  
town and the surrounding country in  
the north central part of the state  
as any man in the newspaper ranks.  
May he reach the 100 mark and en-  
joy good health during all the years.

The Staples Headlight shivers when  
it thinks of the rapid growth of the  
three big cities of the state, and Jim  
Hill's prediction for a million popu-  
lation for the twin cities within  
twelve years if Canadian reciprocity  
is realized, gives it a real chill. James  
now has a chance to make good with  
his prediction but we trust that with  
the coming of this vast concourse of  
people we will not be visited with  
the ills that the Staples editor pre-  
dicts.

Out of three new members to be  
elected on the school board in A. K. N.  
at the annual election just held, two  
were ladies, and they drew the long  
year terms at that. Voters are par-  
tial to the ladies in school elections  
and it would probably be to the  
advantage of school boards and edu-  
cational institutions if more women  
of ability would take an interest in  
the affairs connected therewith and  
would willingly allow their names to  
be used in connection with the elec-  
tive offices.

The Brainerd postoffice has been  
designated by the postmaster gen-  
eral to be a postal savings depository  
beginning August 19th. It is ex-  
pected that the postoffice will have  
been transferred to the new federal  
building at the corner of Sixth and  
Maple streets by that time and that  
the new quarters will be ample to pro-  
vide handsomely for all branches of  
business transacted by the govern-  
ment in an office of the second class.  
The addition of the postal savings de-  
pository will be appreciated by the  
people of this city and the fact that  
admirable quarters have been pro-  
vided for the convenience of the pub-  
lic for the transaction of the ordi-  
nary postoffice business as well as  
the savings department is something  
every citizen should appreciate.

The man who is taking a newspaper  
out of the postoffice, receiving it from  
a carrier or any other means whereby  
he accepts the same is responsible for  
the subscription price of that pub-  
lication, according to the court of  
appeals in Missouri where a decision  
has just been rendered. O. D. Aus-  
tin, a Butler publisher, sent his  
paper to Charles Burge and the latter  
paid for it twice and then refused  
to pay again. He said he ordered  
it stopped. But the court of appeals  
holds that mere acceptance of the  
paper created a liability. It adds:  
"The preparation and publication of  
a newspaper involves much mental  
and physical labor as well as an out-  
lay of money. One who accepts the  
paper by continuously taking it from  
the postoffice receives a benefit and  
a pleasure arising from such labor  
and expenditures as fully as if he

had appropriated any other product  
of another's labor, and by such act  
he must be held liable for subscrip-  
tion price."

## BRAINERD GETS POSTAL BANK

This City is Designated by the Postmaster General One in Which Post Savings Depository

WILL BEGIN BUSINESS AUG. 19

Postmaster Receives Instructions—Some Information for the Public as to Deposits

Postmaster Ingersoll has received instructions from the postmaster general that his office has been designated to be a postal savings depository beginning Saturday, August 19, 1911. It is expected that the business of the postoffice will be settled and adjusted in the new quarters provided by the government at the new postoffice building before this date and the business of the postal savings bank will fit in nicely with the new arrangement of affairs. Ample room is provided for the new branch of the government business and complete protection is furnished in the way of burglar proof vaults and safes. The following data is furnished for the information of the public:

Accounts may be opened and deposits made by any person of the age of 10 years or over in his or her own name and by a married woman in her own name and free from any interference or control of her husband. No person can have more than one account at any one time.

No person may open a postal savings account at any postoffice who is not a patron of that office.

All accounts must be opened in person by the depositor or his authorized representative. After opening an account a depositor may forward subsequent deposits to the postoffice by mail.

Deposits will be accepted only from individuals, and no account will be opened in the name of any corporation, association, society, firm or partnership, or in the names of two or more persons jointly.

No account will be opened in the name of one person in trust for or on behalf of another person or persons.

No person connected with the postoffice department or the postal service is permitted to disclose the name of any depositor or give any information concerning an account except to the depositor himself, unless directed to do so by the postmaster general.

When a person applies to open an account he must furnish the necessary information for the postmaster or his representative to fill out an application, which he will then be required to sign. If the applicant signs by mark his signature must be witnessed by a disinterested person.

Deposits are evidenced by postal savings certificates, issued in fixed denominations of \$1, \$2, \$5, \$10, \$20, \$50 and \$100, each bearing the name of the depositor, the number of his account, the date of issue, the name of the depository office and the date on which interest begins. The postmaster or his representative will make out a duplicate of each certificate issued, which the depositor will be required to sign and which the postmaster will retain in his records.

No account will be opened for less than \$1, nor will fractions of a dollar be accepted for deposit.

No person is permitted to deposit more than \$100 in any one calendar month nor to have a total balance to his credit at one time of more than \$500, exclusive of accumulated interest.

Savings certificates cannot be transferred or negotiated and will be payable only to the person to whom issued.

On opening an account a depositor is supplied with an envelope in which he may keep his savings certificates. On this envelope is printed information for his guidance and also a blank ledger record on which to keep an account of his deposits and withdrawals.

In case a savings certificate is lost or destroyed the depositor should notify the postmaster. If deemed proper, a new certificate will be issued upon compliance by the depositor with the necessary requirements. Postmasters are not permitted to receive savings deposits for safe-keeping.

Amounts less than \$1 may be saved for deposit by the purchase of 10-cent postal savings stamps. Each postal saving card contains blank spaces to which savings stamps may be affixed from time to time as purchased, and a postal savings card with nine 10-cent savings stamps thus affixed will be accepted as a deposit of \$1 either in opening an account or in adding to an existing account.

Savings cards and stamps will be redeemed only by the issue of savings certificates and are not valid for postage. They will not be received in exchange for postage stamps nor will postage stamps be accepted in exchange for postal savings cards or stamps.

Interest will be allowed on all deposits at the rate of 2 per cent per annum, computed on each savings certificate separately, and payable annually. No interest will be paid on money which remains on deposit for a fraction of a year only.

Deposits will bear interest from the first day of the month next following that in which it was deposited.

Interest will continue to accrue on a savings certificate as long as it remains outstanding, certificates be-

ing valid until paid, without limitation as to time.

Compound interest is not allowed on outstanding certificates, but a depositor may withdraw interest payable and include it in a new deposit, which will bear interest at the regular rate.

A depositor may at any time withdraw the whole or part of his deposits to his credit with any interest payable by surrendering savings certificates, properly indorsed, for the amount desired.

A depositor presenting a certificate for payment in full with all interest payable, must indorse it on the back in the presence of the postmaster or his representative and surrender it. If satisfied as to the depositor's identity, will then make payment.

When a depositor desires to withdraw only a part of the amount called for by any certificates, the postmaster will cancel the certificate and issue a new certificate covering the amount to be left on deposit. The new certificate will be so dated that the depositor will not lose interest on the amount remaining continuously on deposit.

When a depositor wishes to withdraw merely the interest payable on any certificate, instead of indorsing and surrendering the certificate as in the case of full payment, he will be required to give his receipt in duplicate for the amount of interest paid. The postmaster will enter the interest payment on the back of the certificate and return it to the depositor.

## SUDDEN DEATH OF JOHN C. CONGDON

Pioneer Resident of Brainerd Dies Suddenly While Visiting at the Summer Home of His Son

AT GULL LAKE THIS FORENOON

Was in His Usual Health and Good Spirits When He Suddenly Topped Over Dead

Word was telephoned to the city at noon today that John C. Congdon, one of the oldest residents and well known in this city, had died suddenly at the summer home of his son, Harry Congdon, at the lower end of Gull lake, where he had gone with his wife for an over Sunday visit. Jud Wright and Dan Whitney, of the undertaking firm of Losey & Dean, left at once for the purpose of bringing the body to this city. No particulars except that death came without warning were obtainable. Mr. Congdon was probably one of the best known citizens of Brainerd, was a prominent Odd Fellow and G. A. R. man and belonged to many other organizations. He has been identified with the city's growth and has held positions of trust and responsibility for some years having been a member of the board of education. He was actively engaged at his profession up until Saturday, having just finished the job of lettering the windows and doors of the interior of the new government building just being completed in this city. Funeral arrangements and further details regarding his death will be published in this paper tomorrow.

## PLAY BALL

There is a city they call Brainerd, That is not so very small.

They got a bunch of lads in that town That can certainly play baseball.

They play like old time leaguers, When "Happy's" on the mound.

If you want to see a good game, Follow the band to Keoring grounds.

They got Bush and Harold Kalland, They got Templeton and Paine, Not a harder hitting quartette, Could you find from here to Maine.

Cheer up, you fans and rooters, When "Happy's" got the steam,

Because before the season's over, Little Falls will receive a shut-out, From the Brainerd City Team.

—Desmond Hurley.

## A Slap at Miss Keeter

When the summer sky is azure blue when your heart is light and your love is true, when your sole idea of a joyous lark is a slender waist in a spot quite dark; when you have the place the girl and that you're sitting there for a quiet chat, can you recall in your young life of such anger deep, or a wrath so rife when with a fearful ire your arms you fling to anticipate the mosquitoes sting? When you scratch and thrash and slap and swear, and you slaw and slash and he's not there, if you want relief invest a quarter, and Skeeter Skoot will complete the slaughter.—Audyard Dipping.

Don't get stung! See! The Skeeter skoot.

cod-2w Johnson's Pharmacy.

## DR. BRUNS

Will be at Hotel Ransford tomorrow. Spectacles and eye glasses fitted correctly. If you need glasses consult him. Eyes examined free.

## KALLAND'S HOME RUN WINS GAME

Slams One Over the Barbed Wire Fence in Last Half of Ninth Inning Sunday

3 RUNS TROT OVER PLATE

Akeley Defeated in Last Inning of Closely Fought Game, Score 3 to 2

Out of the jaws of defeat Harold Kalland snatched the Brainerd City team in its game with Akeley and in the last half of the ninth hammered out the home run which fetched in the three winning runs and made the final score 3 to 2.

And then the crowd went wild. Kalland was lifted to the shoulders of the fans and carried around the diamond. Money was showered on him. The whooping and cheering could be heard a mile. When men like Attorney S. F. Alderman, Sheriff Reid, Deputy County Auditor Treglawny and Attorney M. E. Ryan yell until they're hoarse you can imagine how the rest of the devoted fans acted. That Sunday game is one of those games you can talk about for years and put it in a column with the greatest plays described by the St. Paul Pioneer Press.

Main came down at intervals and caused the grand stand to be a regular haven of refuge, but it never stopped the game.

The game was closely fought all the way through and several times the locals had men on bases but failed to score. Akeley made its two runs in the fourth inning and the score stood 2 to 0 in their favor at the end of the first half of the ninth.

Brainerd came to bat and then the fireworks started off in a series of climaxes and explosions which nearly gave the Brainerd fans the heart disease. It showed that the Brainerd city team is possessed of the never die spirit and never gives up until the last man is out.

Templeton was allowed free transportation to first. Bud Roderick hit a fast one to the pitcher which he fumbled and both runners were safe. It was then that the mighty Kalland was called to the plate. There was a healthy wallop concealed in his bluegown and after the pitcher had thrown two balls Kalland wabashed the pill on the nose and it sailed high and far over the right fielder and towards the cemetery. Three runs trotted across the pan. It was all that was needed to win, and the crowd went wild.

Alderman was selected to toss the pill for our boys and he did it well, holding the heavy Akeley bunch to five scattered bingles. Roderick played like a fiend behind the bat, picking them out of the dirt and pegging in fine style.

Both teams played fine ball and the whirl wind finish will live in the minds of local fans as long as the game is played in these parts and unlucky is the bug who failed to be at the game.

The same teams meet again tonight at 6:15 and another fast exhibition of the national past time is expected. Leslie Bush is slated to do the slab work for Brainerd and will cause no little trouble for those Akeley sluggers. It is also rumored that Roy, an Indian pitcher, may occupy the box for Brainerd.

The score of the game was:

AKELEY										
Still, 2nd	----	4	0	1	5	1	1			
Rower, rf	----	4	0	1	0	0	0			
Giles, 3rd	----	4	0	1	3	1	0

## CONSTANTINOPE DEVASTATED BY FIRE

Constantinople, July 24, 1911.—More than five thousand buildings were destroyed and many thousands of persons were rendered homeless by the incendiary fire which started in the native quarter of Constantinople Sunday night, and was not extinguished until early today.

Buried at Public Expense. In some of the cantons of Switzerland all the dead, rich as well as poor, are buried at the public expense.

## PROMINENT RESIDENT DIES

Mrs. Henry Anderson, of 1324 Oak St., Passed Away on Sunday Evening

Mrs. Anna Katherine Anderson, aged 57 years, the wife of Henry Anderson, passed away on Sunday evening at eight o'clock at her home, 1324 Oak street in the presence of her family and relatives. The immediate cause of death was arterial sclerosis. About Christmas time of last year she sustained a fall which severely injured her spine. She suffered much and was taken to a local hospital the latter part of June and again taken back home.

The deceased was born in Denmark and coming to this country she was married to Henry Anderson and since that time the family has resided continuously in Brainerd. She was essentially a home loving and home building woman, devoted to her children and her husband. It is seldom even that she went down town or out of the city. She was loved by all her friends and neighbors who were glad to share her friendship. She was a member of the Modern Brotherhood of America.

Surviving her are her husband and five sons, Andrew, Peter, Martin, Carl and Thorvald. Three sisters attended to her in her last illness and were present at her death. They are Mrs. Sofus Press, of Tacoma, Wash.; Mrs. Wm. Soderlund, of South Tacoma, Wash.; and Mrs. James Peterson, of Detroit. The funeral will be held on Wednesday afternoon at two o'clock from the residence and at half past two o'clock from the Seventh Street Norwegian Lutheran church, Rev. M. L. Hostager officiating. Interment will be in Evergreen cemetery.

The sympathy of their many friends is extended the family in its deep distress.

## WOOD'S LATH MILL BURNED TO GROUND

Mill Situated in Northeast Brainerd in Flames Three O'clock Sunday Morning

ORIGIN OF FIRE IS UNKNOWN

It Employed About 25 Men—Mill Burned But Large Amount of Stock Untouched

Wm. Wood's lath mill in Northeast Brainerd situated near the M. & I. bridge burned entirely to the ground at three o'clock Sunday morning. The mill is estimated to be worth about \$15,000 and the insurance on the same was a little over half its value amounting to \$8,500, of which \$1,500 was in the Blewitt agency, \$1,500 with Allbright & Hartley and \$5,500 with G. W. Chadbourne.

The origin of the fire is not known. It was a wet, windy night and lightning may have been the cause of the blaze. Ed. Ralph, the watchman, was in his tower and was horrified to see the fire burst out early in the morning. He gave the alarm but the flames rapidly demolished the entire structure, machinery and all its contents.

Fifty carloads of lath piled near by were not burned and their wet condition saved them from becoming a part of the conflagration. On this stock there was, it is said, about \$7,000 insurance.

The mill employed about 25 men and was shut down a short time ago when the company ran out of lath bolts. It was a two story structure measuring 45 by 24 feet and built about four years ago. For half a year Mr. Wood had associated with him Attorney A. D. Polk and later he bought out his interest and conducted the mill alone.

The lath had a ready sale throughout the county and were shipped outside in carload lots. Many of these lath were used on houses at Cuyuna, Crosby and Ironton as well as in this city.

Mr. Wood, when seen said: "I don't know what I shall do just now. But I guess I shall rebuild because I've got to do something. I can't stay idle." It is hoped he will build up the plant again for it is an institution like his mill, employing from 10 to 25 men that the city is much benefited. Northeast Brainerd especially.

## Adair-Roberts

The marriage of G. W. Adair and Miss Mary E. Roberts, both of this city, was solemnized on Saturday afternoon at 4 o'clock at the Methodist Episcopal parsonage.

The ceremony was witnessed but by a few friends of the young couple, with Mr. and Mrs. C. B. Clark acting as bridesmaid and bridegroom. The short ring service of the church was used and Rev. Charles Fox Davis read the marriage lines.

After the ceremony a wedding supper was served at the residence of Mr. and Mrs. G. W. Adair, in West Brainerd, to which fifty invited guests sat down. They were the recipients of some very valuable presents.

Both of the young people are well known in Brainerd, and will make their home in West Brainerd.

Those Who Take Foley Kidney Pills For their kidney and bladder ailments, and for annoying urinary irregularities are always grateful both for the quick and permanent relief they afford, and for their tonic and strengthening effect as well. Try Foley Kidney Pills. For sale by all druggists.

## "MICHAEL'S"

## FIRES 1,075 SHOTS IN EIGHT DAYS

Art White is Surely Doing Some Tall Shooting These Last Few Days

WINS THE DIAMOND BADGE

Made Good Record Here on July 16—Shot at a Duluth Tournament Yesterday

Firing 1,075 shots within 8 days, six days of which were devoted to shooting, is the record of Art White of this city. To fire this cannonade one must have an arm and shoulder like iron, nerves like steel, and a constitution built to contain these characteristics.

On Sunday, July 16, Mr. White fired 150 shots at the Brainerd Gun club grounds and made some excellent scores.

Tuesday and Wednesday, July 18 and 19 he was at the Aitkin state tournament shooting 400 shots and winning the state championship diamond badge.

Thursday he stopped to blow the smoke out of his gun and to cool the barrel. In the evening he went to Duluth.

Friday and Saturday, July 21 and 22, he competed at the tournament of the Central Gun club of Duluth and Sunday at the shoot of the West Gun club, firing 550 shots. This made the total of 1,075 shots.

Take the average man who has done no shooting during the year and let him fire 100 shots in an afternoon and his head aches, his arms are sore and he has something to talk about for a week.

The state shoot at Brainerd will probably be held in June next year. That month is better than July and will give more entrants who in this month are busy haymaking or harvesting. The winner of the big badge gets \$3 for each entrant at next year's shoot and it is now estimated that at least 150 people will come to Brainerd to shoot, six times the number of Aitkin entries.

Much enthusiasm was shown and satisfaction expressed that White won and that Brainerd got the next tournament. Mr. Dewey, one of the five Dewey brothers prominent farmers of Ferguson Falls, said the whole family would come to Brainerd next year with 10 more from his town. George Trent guarantees to get in touch with every shooter, and he knows them all, and will have them at Brainerd. It is planned to have two days to the event.

## BRAINERD GETS POSTAL BANK

This City is Designated by the Postmaster General One in Which Post Savings Depository

WILL BEGIN BUSINESS AUG. 19

Postmaster Receives Instructions—Some Information for the Public as to Deposits

Postmaster Ingersoll has received instructions from the postmaster general that his office has been designated to be a postal savings depository beginning Saturday, August 19, 1911. It is expected that the business of the postoffice will be settled and adjusted in the new quarters provided by the government at the new postoffice building before this date and the business of the postal savings bank will fit in nicely with the new arrangement of affairs. Ample room is provided for the new branch of the government business and complete protection is furnished in the way of burglar proof vaults and safes. The following data is furnished for the information of the public:

Accounts may be opened and deposits made by any person of the age of 10 years or over in his or her own name and by a married woman in her own name and free from any interference or control of her husband. No person can have more than one account at any one time.

No person may open a postal savings account at any postoffice who is not a patron of that office.

All accounts must be opened in person by the depositor or his authorized representative. After opening an account a depositor may forward subsequent deposits to the postoffice by mail.

Deposits will be accepted only from individuals, and no account will be opened in the name of any corporation, association, society, firm or partnership, or in the names of two or more persons jointly.

No account will be opened in the name of one person in trust for or on behalf of another person or persons.

No person connected with the postoffice department or the postal service is permitted to disclose the name of any depositor or give any information concerning an account except to the depositor himself, unless directed to do so by the postmaster general.

When a person applies to open an account he must furnish the necessary information for the postmaster or his representative to fill out an application, which he will then be required to sign. If the applicant signs by mark his signature must be witnessed by a disinterested person.

Deposits are evidenced by postal savings certificates, issued in fixed denominations of \$1, \$2, \$5, \$10, \$20, \$50 and \$100, each bearing the name of the depositor, the number of his account, the date of issue, the name of the depository office and the date on which interest begins. The postmaster or his representative will make out a duplicate of each certificate issued, which the depositor will be required to sign and which the postmaster will retain in his records.

No account will be opened for less than \$1, nor will fractions of a dollar be accepted for deposit.

No person is permitted to deposit more than \$100 in any one calendar month nor to have a total balance to his credit at one time of more than \$500, exclusive of accumulated interest.

Savings certificates cannot be transferred or negotiated and will be payable only to the person to whom issued.

On opening an account a depositor is supplied with an envelope in which he may keep his savings certificates. On this envelope is printed information for his guidance and also a blank ledger record on which to keep an account of his deposits and withdrawals.

In case a savings certificate is lost or destroyed the depositor should notify the postmaster. If deemed proper, a new certificate will be issued upon compliance by the depositor with the necessary requirements. Postmasters are not permitted to receive savings deposits for safe-keeping.

Amounts less than \$1 may be saved for deposit by the purchase of 10-cent postal savings stamps. Each postal saving card contains blank spaces to which savings stamps may be affixed from time to time as purchased, and a postal savings card with nine 10-cent savings stamps thus affixed will be accepted as a deposit of \$1 either in opening an account or in adding to an existing account.

Savings cards and stamps will be redeemed only by the issue of savings certificates and are not valid for postage. They will not be received in exchange for postage stamps nor will postage stamps be accepted in exchange for postal savings cards or stamps.

Interest will be allowed on all deposits at the rate of 2 per cent per annum, computed on each savings certificate separately, and payable annually. No interest will be paid on money which remains on deposit for a fraction of a year only.

Deposits will bear interest from the first day of the month next following that in which it was deposited.

Interest will continue to accrue on a savings certificate as long as it remains outstanding, certificates be-

ing valid until paid, without limitation as to time.

Compound interest is not allowed on outstanding certificates, but a depositor may withdraw interest payable and include it in a new deposit, which will bear interest at the regular rate.

A depositor may at any time withdraw the whole or part of his deposits to his credit with any interest payable by surrendering savings certificates, properly indorsed, for the amount desired.

A depositor presenting a certificate for payment in full with all interest payable, must indorse it on the back in the presence of the postmaster or his representative and surrender it. The postmaster or his representative, if satisfied as to the depositor's identity, will then make payment.

When a depositor desires to withdraw only a part of the amount called for by any certificates, the postmaster will cancel the certificate and issue a new certificate covering the amount to be left on deposit. The new certificate will be so dated that the depositor will not lose interest on the amount remaining continuously on deposit.

When a depositor wishes to withdraw merely the interest payable on any certificate, instead of indorsing and surrendering the certificate as in the case of full payment, he will be required to give his receipt in duplicate for the amount of interest paid. The postmaster will enter the interest payment on the back of the certificate and return it to the depositor.

## SUDDEN DEATH OF JOHN C. CONGDON

Pioneer Resident of Brainerd Dies Suddenly While Visiting at the Summer Home of His Son

AT GULL LAKE THIS FORENOON

Was in His Usual Health and Good Spirits When He Suddenly Topped Over Dead

Word was telephoned to the city at noon today that John C. Congdon, one of the oldest residents and well known in this city, had died suddenly at the summer home of his son, Harry Congdon, at the lower end of Gull lake, where he had gone with his wife for an over Sunday visit. Jud Wright and Dan Whitney, of the undertaking firm of Losey & Dean, left at once for the purpose of bringing the body to this city. No particulars except that death came without warning were obtainable. Mr. Congdon was probably one of the best known citizens of Brainerd, was a prominent Odd Fellow and G. A. R. man and belonged to many other organizations. He has been identified with the city's growth and has held positions of trust and responsibility, for some years having been a member of the board of education. He was actively engaged at his profession up until Saturday, having just finished the job of lettering the windows and doors of the interior of the new government building just being completed in this city. Funeral arrangements and further details regarding his death will be published in this paper tomorrow.

## PLAY BALL

There is a city they call Brainerd, That is not so very small. They got a bunch of lads in that town That can certainly play baseball.

They play like old time leaguers, When "Happy" on the mound. If you want to see a good game, Follow the band to Koering grounds. They got Bush and Harold Kalland, They got Templeton and Paine, Not a harder hitting quartette, Could you find from here to Maine.

Cheer up, you fans and rooters, When "Happy" got the steam. Because before the season's over, Little Falls will receive a shut-out, From the Brainerd City Team.

—Desmond Hurley.

## A Slap at Miss Keeter

When the summer sky is azure blue when your heart is light and your love is true, when your sole idea of a joyous lark is a slender waist in a spot quite dark; when you have the place the girl and that you're sitting there for a quiet chat, can you recall in your young life of such anger deep, or a wrath so rife when with a fearful fire your arms you fling to anticipate the mosquitoes sting? When you scratch and thrash and slap and swear, and you claw and slash and he's not there. If you want relief invest a quarter, and Skeeter Skoot will complete the slaughter.—Audyard Dipping.

Don't get stung! See! The Skeeter skoot. Johnson's Pharmacy.

## Marriage Licenses

July 22, 1911—G. W. Adair to Mary E. Roberts.

July 22—Edwin Holmquist to Leslie R. Clouse.

## At the Club.

Lady President—What book has helped you most? New Member—My husband's check book.—Lippincott's.

## DR. BRUNS

Will be at Hotel Ransford tomorrow. Spectacles and eye glasses fitted correctly. If you need glasses consult him. Eyes examined free.

## KALLAND'S HOME RUN WINS GAME

Slams One Over the Barbed Wire Fence in Last Half of Ninth Inning Sunday

3 RUNS TROT OVER PLATE

Akeley Defeated in Last Inning of Closely Fought Game, Score 3 to 2

Out of the jaws of defeat Harold Kalland snatched the Brainerd City team in its game with Akeley and in the last half of the ninth hammered out the home run which fetched in the three winning runs and made the final score 3 to 2.

And then the crowd went wild. Kalland was lifted to the shoulders of the fans and carried around the diamond. Money was showered on him. The whooping and cheering could be heard a mile. When men like Attorney S. F. Alderman, Sheriff Reid, Deputy County Auditor Treglawny and Attorney M. E. Ryan yell until they're hoarse you can imagine how the rest of the devoted fans acted. That Sunday game is one of those games you can talk about for years and put it in a column with the greatest plays described by the St. Paul Pioneer Press.

Rain came down at intervals and caused the grand stand to be a regular haven of refuge, but it never stopped the game.

The game was closely fought all the way through and several times the locals had men on bases but failed to score. Akeley made its two runs in the fourth inning and the score stood 2 to 0 in their favor at the end of the first half of the ninth.

Brainerd came to bat and then the fireworks started off in a series of climaxes and explosions which nearly gave the Brainerd fans the heart disease. It showed that the Brainerd city team is possessed of the never die spirit and never gives up until the last man is out.

Templeton was allowed free transportation to first. Bud Roderick hit a fast one to the pitcher which he fumbled and both runners were safe. It was then that the mighty Kalland was called to the plate. There was a healthy wallop concealed in his bludgeon and after the pitcher had thrown two balls Kalland washed the pill on the nose and it sailed high and far over the right fielder and towards the cemetery. Three runs trotted across the pan. It was all that was needed to win, and the crowd went wild.

Alderman was selected to toss the pill for our boys and he did it well, holding the heavy Akeley bunch to five scattered bingles. Roderick played like a fiend behind the bat, picking them out of the dirt and pegging in fine style.

Both teams played fine ball and the whirl wind finish will live in the minds of local fans as long as the game is played in these parts and unlucky is the bug who failed to be at the game.

The same teams met again tonight at 6:15 and another fast exhibition of the national past time is expected. Leslie Bush is slated to do the slab work for Brainerd and will cause no little trouble for those Akeley sluggers. It is also rumored that Roy, an Indian pitcher, may occupy the box for Brainerd.

The score of the game was:

AKELEY		ab	r	h	po	a	e
Still, 2nd	-----	4	0	1	5	1	1
Rower, rf	-----	4	0	1	0	0	0
Giles, 3rd	-----	4	0	1	3	1	0
Bergusson, p	-----	3	1	0	1	3	0
Evans, ss	-----	4	1	1	0	1	1
Littleboe, cf	-----	4	0	0	1	0	0
Downs, 1st	-----	3	0	0	6	3	1
McNamar, c	-----	4	0	0	8	0	0
Bell, lf	-----	3	0	1	0	0	0
		33	2	5	24	9	3

BRAINERD		ab	r	h	po	a	e
C. Bush, 2nd	-----	3	0	1	1	1	0
Paine, 1st	-----	4	0	0	13	0	0
L. Bush, ss	-----	4	0	1	4	2	0
Templeton, 3rd	-----	3	1	2	0	4	1
Roderick, c	-----	4	1	0	8	6	1
Kalland, rf	-----	3	1	1	0	0	0
Shelfo, lf	-----	3	0	1	1	0	0
Trent, c	-----	2	0	0	0	0	0
Alderman, p	-----	3	0	0	0	2	0
Erickson, cf	-----	1	0	0	0	0	0
		30	3	6	27	15	1

None out when the winning run was made.

Score by innings:

Akeley ---- 0 0 0 2 0 0 0 0 0 2

Brainerd ---- 0 0 0 0 0 0 0 0 3 3

Summary—Home runs, Kalland; sacrifice hits, C. Bush; stolen bases, Templeton; double plays, Downs to Still, Paine to Templeton to C. Bush, Bergusson to Downs; struck out by Bergusson 6, by Alderman 5; bases on balls, off Bergusson 1, off Alderman 1; hit -- pitcher, by Alderman 1; balk, Bergusson.

## CONSTANTINOPLE DEVASTATED BY FIRE

Constantinople, July 24, 1911.—

More than five thousand buildings were destroyed and many thousands of persons were rendered homeless by the incendiary fire which started in the native quarter of Constantinople Sunday night, and was not extinguished until early today.

Buried at Public Expense. In some of the cantons of Switzerland all the dead, rich as well as poor, are buried at the public expense.

## PROMINENT RESIDENT DIES

Mrs. Henry Anderson, of 1324 Oak St., Passed Away on Sunday Evening

Mrs. Anna Katherine Anderson, aged 57 years, the wife of Henry Anderson, passed away on Sunday evening at eight o'clock at her home, 1324 Oak street in the presence of her family and relatives. The immediate cause of death was arterial sclerosis. About Christmas time of last year she sustained a fall which severely injured her spine. She suffered much and was taken to a local hospital the latter part of June and again taken back home.

The deceased was born in Denmark and coming to this country she was married to Henry Anderson and since that time the family has resided continuously in Brainerd. She was essentially a home loving and home loving woman, devoted to her children and her husband. It is seldom even that she went down town or out of the city. She was loved by all her friends and neighbors who were glad to share her friendship. She was a member of the Modern Brotherhood of America.

Surviving her are her husband and five sons, Andrew, Peter, Martin, Carl and Thorvald. Three sisters attended to her in her last illness and were present at her death. They are Mrs. Sofus Press, of Tacoma, Wash.; Mrs. Wm. Soderlund, of South Tacoma, Wash.; and Mrs. James Peterson, of Detroit. The funeral will be held on Wednesday afternoon at two o'clock from the residence and at half past two o'clock from the Seventh Street Norwegian Lutheran church, Rev. M. L. Hostager officiating. Interment will be in Evergreen cemetery.

The sympathy of their many friends is extended the family in its deep distress.

## WOOD'S LATH MILL BURNED TO GROUND

Mill Situated in Northeast Brainerd in Flames Three O'clock Sunday Morning

ORIGIN OF FIRE IS UNKNOWN

It Employed About 25 Men—Mill Burned But Large Amount of Stock Untouched

Wm. Wood's lath mill in Northeast Brainerd situated near the M. & I. bridge burned entirely to the ground at three o'clock Sunday morning. The mill is estimated to be worth about \$15,000 and the insurance on the same was a little over half its value amounting to \$8,500, of which \$1,500 was in the Blewitt agency, \$1,500 with Albright & Hartley and \$5,500 with G. W. Chadbourne.

The origin of the fire is not known. It was a wet, windy night and lightning may have been the cause of the blaze. Ed. Ralph, the watchman, was in his tower and was horrified to see the fire burst out early in the morning. He gave the alarm but the flames rapidly demolished the entire structure, machinery and all its contents.

Fifty carloads of lath piled near by were not burned and their wet condition saved them from becoming a part of the conflagration. On this stock there was, it is said, about \$7,000 insurance.

The mill employed about 25 men and was shut down a short time ago when the company ran out of lath bolts. It was a two story structure measuring 45 by 24 feet and built about four years ago. For half a year Mr. Wood had associated with him Attorney A. D. Polk and later he bought out his interest and conducted the mill alone.

The lath had a ready sale throughout the county and were shipped outside in carload lots. Many of these lath were used on houses at Cuyuna, Crosby and Ironton as well as in this city.

Mr. Wood, when seen said: "I don't know what I shall do just now. But I guess I shall rebuild because I've got to do something. I can't stay idle." It is hoped he will build up the plant again for it is an institution like his mill, employing from 10 to 25 men that the city is much benefitted. Northeast Brainerd especially.

## Adair-Roberts

The marriage of G. W. Adair and Miss Mary E. Roberts, both of this city, was solemnized on Saturday afternoon at 4 o'clock at the Methodist Episcopal parsonage.

The ceremony was witnessed but by a few friends of the young couple, with Mr. and Mrs. C. B. Clark acting as bridesmaid and bridegroom. The short ring service of the church was used and Rev. Charles Fox Davis read the marriage lines.

After the ceremony a wedding supper was served at the residence of Mr. and Mrs. G. W. Adair, in West Brainerd, to which fifty invited guests sat down. They were the recipients of some very valuable presents.

Both of the young people are well known in Brainerd, and will make their home in West Brainerd.

## THE POCKETKNIFE

Many Machines and Processes Used In Its Making.

### ART IN FORGING THE BLADES.

To Become an Adept In the Delicate Work of Tempering Edge Steel Necessitates a Long Course of Training and Years of Experience.

The labor of making a pocketknife is, as usual in every industry that is carried on by the aid of a great deal of machinery, much divided. Each blade must go through six separate processes—first, forging; second, laying on the "tangs," that part which is inserted into the handle and through which the blade is riveted; third, marking or stamping with the name of the manufacturer; fourth, "choiling," or filing a depression in the neck of the blade between the sharp edge and the heavier part or "tang;" fifth, tempering; sixth, grinding.

All this applies to the two ordinary blades of a knife. Nail blades are subjected to still another process—namely, the cutting of the file, which is a department of work in itself.

Should we inspect the material room of a knife manufacturer we should find heavy iron presses, which stamp out from sheets of brass or iron the metal scales and lining. The bright tips on the end of the knife, called "bolsters," are pressed out of German silver under another heavy weight, which does its work in one blow. Huge shears cut from sheets of steel, used only for this purpose, long strips that are afterward fashioned under a press into springs for the back of the knife.

The rod of steel from which the blades are made is taken from the material room to the forge. Here one end is put into a bed of hot coals, the bellows are pumped, and the end is soon red.

The skilled forger then hammers the blade into shape upon his anvil, and so accurate is his eye and so exact his hand that the blade does not deviate a hair's breadth from the little brass pattern that is before him and to which each blade must correspond exactly.

The blade is next dipped in water and becomes as hard and brittle as glass. But the edges are rough. It is nearly uniform in thickness and is a light gray in color.

Again the forger's skill is brought into play in the tempering. Laying the blades on a copper plate over the fire, he watches them as they change their hue with the degree of heat, first to straw color, then to darker straw and now to the dark purple which denotes that the proper degree of heat has been obtained. They are plunged into cold water as fast as they reach this point.

If the blades were allowed to remain longer over the fire the steel would change to a light blue and become so soft that the blades could be bent easily. This is perhaps the most important process in the manufacture.

The blades are taken next to the grinding room. The grinder must also depend upon the accuracy of his eye and the training of his hand, for as he presses the blade on the rapidly revolving stone, turning it on both sides and grinding all its edges, he practically finishes it, though afterward, in the cutter's room, a higher finish is given it.

From the "wheel room" the blades go to the cutter's room, where they find the other parts of the knife and where all the parts are put together.

Each workman here is at work upon a particular lot of knives, all of one pattern. Upon his work bench are the various parts of the knives, prepared by other hands—the center scales that separate the blades, the outer brass scales of lining, with the German silver bolsters, which have been secured to the ends by a heavy drop hammer; the wood, ivory or pearl scales, the springs and the wire rivets.

Each brass lining, with its covering, is put in a vise, and holes are drilled in it for the rivets. A brass wire is thrust through the middle of the handle toward the back. This secures the spring, and it is then broken off with pliers and headed down with a hammer. This holds the scales and springs. Another rivet through the bolster secures one blade or two blades if the knife has more than one blade hung at each end.

The several parts are now put together. The next process is "hafting" or finishing the covers of the handle, which is done on a leather wheel coated with glue and emery. The rough edges are rounded and smoothed, and then the knives are carefully examined to see if the cutter has done his work properly.

If the spring works easily and the blades close without striking the knives are sent to the blade polisher.

On a wooden wheel covered with fine leather the ordinary blades are given a polish called a "glaze finish." Finer grades of knives are given a "crocus finish"—a mirror-like surface—on a leather wheel which revolves very slowly, in order that the blades shall not become heated and lose their temper.

The knives are now taken to another room, where, on an oilstone, the keen cutting edges are "set." This done, the blades are closed, and the "buffing wheel" gives the final polish to the outer side.—Philadelphia Record.

**Deafness Cannot be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies.

Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, none case out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENNEY & CO., Toledo, O. Sold by Druggists, Etc.

Take Hall's Family Pills for constipation.

### CIRCUS AUGUST 5th

Sells-Floto Circus Gives Two Performances at Popular Admission Price of 25 Cents

On Saturday, August 5th the great Sells-Floto circus is billed to reach this city and they promise to outdo in every way the performances which they have given heretofore.

Already the city and country has been billed liberally and a glance at the attractions offered will prove positively that when the proprietors of this big Western circus announce that they have enlarged their show in every way, there is a good deal of foundation for the statement.

The Sells-Floto circus is an independent organization operating entirely outside the combination generally known as the circus trust. For many years they have had a strenuous fight on their hands in order that they might exist, but last season they inaugurated a policy of cutting the regular admission price in half and if reports of their tour go for anything the departure has met with unqualified success and approval everywhere.

This season we are told that they have come back with a circus almost twice as large as that of former years. Their representative who is in the city, asserts that those who will be given a magnificent parade which will be given at 10:30 on the morning of the performance, will be fully convinced as to any statements made in that connection. The price of admission will be the same as last season. 25 cents is the standard price and the big tent this year will seat 10,000 people.

As the Sells-Floto people have always born an enviable reputation for keeping faith with their public, their engagement here will be an there is no reason to doubt but that unqualified success.

### Hay Fever and Summer Colds

Must be relieved quickly and Foley's Honey and Tar Compound will do it. E. M. Stewart, 1034 Wolfram St., Chicago, writes: "I have been greatly troubled during the not summer months with hay fever and find that by using Foley's Honey and Tar Compound I get great relief." Many others who suffer similarly will be glad to benefit by Mr. Stewart's experience. For sale by all druggists.

### PROGRAM OF EXAMINATIONS

For Common School Certificates July 31st, and August 1st and 2nd 1911

The second grade teachers examinations will be held at the High school. The first grade at the court house.

The following is the program:

**MONDAY, JULY 31st**  
(Second Grade Studies.)  
A. M.—8:00 Enrollment.  
8:30 Professional test.  
9:30 Spelling.  
10:30 Arithmetic.  
P. M.—1:15 Geography.  
2:45 Composition.  
3:45 Reading.  
4:45 Penmanship.

**TUESDAY, AUGUST 1st.**  
(Second Grade Studies Continued.)  
A. M.—8:00 U. S. History.  
9:45 English Grammar.  
11:30 Music.  
P. M.—1:15 Physiology-Hygiene.  
2:45 Civics.  
4:00 Agriculture.

**WEDNESDAY, AUGUST 2d.**  
(First Grade Studies)  
A. M.—8:00 Enrollment.  
8:30 Geometry.  
10:15 Physics.  
P. M.—1:15 Algebra.  
2:45 Physical Geography or General History.

If professional test consumes less than 60 minutes, spelling and arithmetic may begin not to exceed 30 minutes earlier.

**MRS. IRMA CAMP HARTLEY,**  
Superintendent of Schools.

**Honest Medicines Versus Fakes**  
President Taft's recent message suggesting an amendment to the Pure Food and Drugs law in its relation to Prepared Medicines, does not refer to such standard medicines as Foley's Honey and Tar Compound and Foley Kidney Pills, both of which are true medicines carefully compounded of ingredients whose medicinal qualities are recognized by the medical profession itself as the best known remedial agents for the diseases they are intended to counteract. For over three decades Foley's Honey and Tar Compound has been a standard remedy for coughs, colds and affections of the throat, chest and lungs for children and for grown persons, and it retains today its pre-eminence above all other preparations of its kind. Foley Kidney Pills are equally effective and meritorious. For sale by all druggists. mwf

**They Were All "Pills."**  
One of the fashionable east side churches recently witnessed a funny incident at a choir rehearsal. They were preparing for the following Sunday morning a beautiful selection, the first words of which were, "I am a pilgrim." It so happened that the music divided the word "pilgrim" and made a pause after the syllable. The effect was most amusing. The soprano sang in a high key "I am a pil" and then stopped. The tenor acknowledged that he was a "pil," and when the bass came thundering in with a like declaration, "I am a pil," it was too much for the gravity of the singers, and they roared. No amount of practice could get them past the fatal pause without an outburst, and the piece had to be given up.—Musical World.

### ADDITIONAL LOCAL NEWS NOTES

(Continued from page 2)

Mr. and Mrs. J. L. Morrissey and children and their guests, James Free, of Pittsburgh and Dr. and Mrs. Werner Hemstead, of Brainerd, left last evening for an outing at Solon Springs.—Duluth News Tribune.

Miss Patti Hamelin, daughter of Mr. and Mrs. O. B. Hamelin, was operated on this morning for appendicitis at St. Joseph's hospital. She rallied from the shock and it is expected that friends may see her here by Thursday.

Gutter, sheet metal work and general repairing, at D. M. Clark & Co's. 71f

Sunday's rain drenched all of Crow Wing county extending as far north as Duluth. It was just what the country needed and in some places the moisture penetrated two feet. Corn and potatoes were much benefited.

Every Monday, Wednesday and Friday the Dispatch will give one of its subscribers two complimentary tickets to the performance of the Empress theatre. Watch the want columns for the names of these entitled to tickets. 11

8 room house for rent at North Sixth street. Inquire L. J. Cale. 4216

A bouncing baby boy was born to Mr. and Mrs. Walter O. Hudson on July 23, 1911. Mother and child are doing well and Mr. Hudson has discovered that he now occupies a secondary place in the household as baby is the new ruler.

See Sherlund for sewer work. 4316

In the quarters formerly occupied by Clarke & Welsh in the Citizens State bank building White Brothers are installing the extensive shelving for a shoe firm which will soon locate there. They are also making alterations to the rooms, three carpenters being engaged on the work.

If you are fatigued, try a bottle of Old Pilsener style lager beer, it is invigorating and refreshing. Order a case from the Brainerd Brewing Co., Phone 213. 304tf

A reception was given in honor of the newly wedded Mr. and Mrs. Leo Frazer Saturday evening at the home of his parents, Mr. and Mrs. Henry Frazer. A large number of invited guests were present, many of whom had not attended the wedding ceremony and they showered the couple with valuable and pretty wedding presents. Refreshments were served during the course of the evening.

Postmaster Russell, at Merrifield, has just completed his summer hotel at Merrifield, which has been named "The Russell" and is ready to accommodate summer guests. The accommodations are the best and prices are reasonable. Able boating facilities. 3916

Franklin W. Merritt, of Minneapolis, was in the city today on his way home from a trip on the Cuyuna range. He was accompanied by A. Caron, a builder and contractor of 689 Twenty-second Ave., N. E., Minneapolis, who examined the work of Mr. Merritt's company. "That mining property," said Mr. Caron, who has also mined at Ishpeming and is therefore acquainted with such propositions, "is worth millions of dollars. I was surprised to see what the company was doing and also to see the extent of the Cuyuna range. Lots of Minneapolis people have no idea of what you have in this country. They are sinking a test shaft in the northeast quarter of the northwest quarter of section 33-47-29 and will have a lot of ore to ship when they get to mining."

### Foley's Honey and Tar Compound

Is effective for coughs and colds in either children or grown persons. No opiates, no harmful drugs. In the yellow package. Refuse substitutes. For sale by all druggists. mwf

### DEWEY FORGIVES THIEF.

Refuses to Prosecute Servant Who Took Valuable Plate.

Admiral Dewey discovered recently that some beautiful silver plate given to him by friends and citizens soon after his return from Manila had disappeared from his home, in K Street, Washington. It was "worth about \$1,200, but the associations made it far more valuable.

It was several days before Admiral Dewey could bring himself to report the facts to the police authorities, as he suspected the thief was in the confidence of his household. He went over the matter with Major Sylvester, chief of police, and asked that no publicity be given the matter without his consent. It was not long before the detective bureau recovered the plate, which had been taken by an old and trusted employee of the admiral.

When a report was made to the admiral he said it was the servant's first step in wrongdoing and decided not to prosecute. The culprit broke down under the admiral's reproaches and begged for mercy and was not only forgiven, but continued in the admiral's employ.

**Kidney Diseases are Curable**  
under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pitman, Dale, Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stones. One bottle of Foley's Kidney Remedy cured me well and sound." Ask for it. For sale by all druggists. mwf

### MAY BE BULLFIGHTS ON AMERICAN SOIL.

Elaborate Preparations in Salt Lake Include Matadors and Mexican Bulls.

Indications that an attempt is to be made to have real bullfights on American soil are causing much excitement among people in Salt Lake City who are opposed to such things. There are evidences that the same forces which prevented the Johnson-Jeffries fight in Utah will soon be arrayed to prevent a spectacle which they would consider far worse than pugilism.

There were hints of great things to come a few weeks ago when Felix Robert, a French matador, recently arrived with the management of Saltair, a resort on the Great Salt lake, for a great Spanish festival, to begin July 22 and last eight days. No alarming announcement of a real bullfight was made, but it was said that real men of the bull ring would be present, and hints were given that their talent would not be entirely wasted.

Now the management of Saltair has made it known that Robert, who went to Mexico recently to arrange for the toreros, dancing girls and others for the troupe, has engaged some of the most successful bullfighters of the capital itself. More significantly, it is announced that he has purchased a carload of specially bred fighting bulls such as are killed in the rings in Mexico. It is remarked by one local paper that even if "something out of the ordinary is in store for people who attend that affair." Except on Sunday evening performances are to be given in an inclosure that certainly closely resembles a bull ring.

It is only since the announcement of the purchase of the specially bred bulls that the church people of Salt Lake City have begun to be aroused. They cannot understand why noted toreros and fine bulls are brought unless for real bullfights and suspect that there is a purpose quietly to introduce such performances and then attempt to give them in other states.

## Brainerd SAT., AUG. 5 CIRCUS SELLS-FLOTO

100 ACTS IN 100 MINUTES

## Many Machines and Processes Used in Its Making.

### ART IN FORGING THE BLADES.

To Become an Adept in the Delicate Work of Tempering Edge Steel Necessitates a Long Course of Training and Years of Experience.

The labor of making a pocketknife is, as usual in every industry that is carried on by the aid of a great deal of machinery, much divided. Each blade must go through six separate processes—first, forging; second, laying on the "tang," that part which is inserted into the handle and through which the blade is gripped; third, marking or stamping with the name of the manufacturer; fourth, "choiling," or filing a depression in the neck of the blade between the sharp edge and the heavier part or "tang;" fifth, tempering; sixth, grinding.

All this applies to the two ordinary blades of a knife. Nail blades are subjected to still another process—namely, the cutting of the file, which is a department of work in itself.

Should we inspect the material room of a knife manufactory we should find heavy iron presses, which stamp out from sheets of brass or iron the metal scales and lining. The bright tips on the end of the knife, called "bolsters," are pressed out of German silver under another heavy weight, which does its work in one blow. Huge shears cut from sheets of steel, used only for this purpose, long strips that are afterward fashioned under a press into springs for the back of the knife.

The rod of steel from which the blades are made is taken from the material room to the forge. Here one end is put into a bed of hot coals, the bellows are pumped, and the end is soon red.

The skilled forger then hammers the blade into shape upon his anvil, and so accurate is his eye and so exact his hand that the blade does not deviate a hair's breadth from the little brass pattern that is before him and to which each blade must correspond exactly.

The blade is next dipped in water and becomes as hard and brittle as glass. But the edges are rough. It is nearly uniform in thickness and is a light gray in color.

Again the forger's skill is brought into play in the tempering. Laying the blades on a copper plate over the fire, he watches them as they change their hue with the degree of heat, first to straw color, then to darker straw and now to the dark purple which denotes that the proper degree of heat has been obtained. They are plunged into cold water as fast as they reach this point.

If the blades were allowed to remain longer over the fire the steel would change to a light blue and become so soft that the blades could be bent easily. This is perhaps the most important process in the manufacture.

The blades are taken next to the grinding room. The grinder must also depend upon the accuracy of his eye and the training of his hand, for as he presses the blade on the rapidly revolving stone, turning it on both sides and grinding all its edges, he is practically finishing it, though afterward, in the cutter's room, a higher finish is given it.

From the "wheel room" the blades go to the cutter's room, where they find the other parts of the knife and where all the parts are put together.

Each workman here is at work upon a particular lot of knives, all of one pattern. Upon his work bench are the various parts of the knives, prepared by other hands—the center scales that separate the blades, the outer brass scales of lining, with the German silver bolsters, which have been secured to the ends by a heavy drop hammer; the wood, ivory or pearl scales, the springs and the wire rivets.

Each brass lining, with its covering, is put in a vise, and holes are drilled in it for the rivets. A brass wire is thrust through the middle of the handle toward the back. This secures the spring, and it is then broken off with nippers and headed down with a hammer. This holds the scales and springs. Another rivet through the bolster secures one blade or two blades if the knife has more than one blade hung at each end.

The several parts are now put together. The next process is "hafting," or finishing the covers of the handle, which is done on a leather wheel coated with glue and emery. The rough edges are rounded and smoothed, and then the knives are carefully examined to see if the cutter has done his work properly.

If the spring works easily and the blades close without striking the knives are sent to the blade polisher.

On a wooden wheel covered with fine leather the ordinary blades are given a polish called a "glaze finish." Finer grades of knives are given a "mirror finish"—a mirror-like surface—on a leather wheel which revolves very slowly, in order that the blades shall not become heated and lose their temper.

The knives are now taken to another room, where, on an oilstone, the keen cutting edges are "set." This done, the blades are closed, and the "buffing wheel" gives the final polish to the outer side.—Philadelphia Record.

### Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; none case out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

### CIRCUS AUGUST 5th

Sells-Floto Circus Gives Two Performances at Popular Admission Price of 25 Cents

On Saturday, August 5th the great Sells-Floto circus is billed to reach this city and they promise to outdo in every way the performances which they have given heretofore.

Already the city and country has been billed liberally and a glance at the attractions offered will prove positively that when the proprietors of this big Western circus announce that they have enlarged their show in every way, there is a good deal of foundation for the statement.

The Sells-Floto circus is an independent organization operating entirely outside the combination generally known as the circus trust. For many years they have had a strenuous fight on their hands in order that they might exist, but last season they inaugurated a policy of cutting the regular admission price in half and if reports of their tour go for anything the departure has met with unqualified success and approval everywhere.

This season we are told that they have come back with a circus almost twice as large as that of former years. Their representative who is in the city, asserts that those who view the magnificent parade which will be given at 10:30 on the morning of the performance, will be fully convinced as to any statements made in that connection. The price of admission will be the same as last season. 25 cents is the standard price and the big tent this year will seat 10,000 people.

As the Sells-Floto people have always born an enviable reputation for keeping faith with their public, their engagement here will be an there is no reason to doubt but that unqualified success.

### Hay Fever and Summer Colds

Must be relieved quickly and Foley's Honey and Tar Compound will do it. E. M. Stewart, 1634 Wolfram St., Chicago, writes: "I have been greatly troubled during the hot summer months with hay fever and find that by using Foley's Honey and Tar Compound I get great relief." Many others who suffer similarly will be glad to benefit by Mr. Stewart's experience. For sale by all druggists.

### PROGRAM OF EXAMINATIONS

For Common School Certificates July 31st, and August 1st and 2nd 1911

The second grade teachers examinations will be held at the High School. The first grade at the court house. The following is the program:

If professional test consumes less than 60 minutes, spelling and arithmetic may begin not to exceed 30 minutes earlier.

MRS. IRMA CAMP HARTLEY,  
Superintendent of Schools.

### Honest Medicines Versus Fakes

President Taft's recent message suggesting an amendment to the Pure Food and Drugs law in its relation to Prepared Medicines, does not refer to such standard medicines as Foley's Honey and Tar Compound and Foley Kidney Pills, both of which are true medicines carefully compounded of ingredients whose medicinal qualities are recognized by the medical profession itself as the best known remedial agents for the diseases they are intended to counteract. For over three decades Foley's Honey and Tar Compound has been a standard remedy for coughs, colds and affections of the throat, chest and lungs for children and for grown persons, and it retains today its pre-eminence above all other preparations of its kind. Foley Kidney Pills are equally effective and meritorious. For sale by all druggists. mwf

### They Were All "Pills."

One of the fashionable east side churches recently witnessed a funny incident at a choir rehearsal. They were preparing for the following Sunday morning a beautiful selection, the first words of which were, "I am a pilgrim." It so happened that the music divided the word "pilgrim" and made a pause after the syllable. The effect was most amusing. The soprano sang in a high key "I am a pil" and then stopped. The tenor acknowledged that he was a "pil," and when the bass came thundering in with a like declaration, "I am a pil," it was too much for the gravity of the singers, and they roared. No amount of practice could get them past the fatal pause without an outburst, and the piece had to be given up.—Musical World

### ADDITIONAL LOCAL NEWS NOTES

(Continued from page 2)

Mr. and Mrs. J. L. Morrissey and children and their guests, James Freely, of Pittsburgh and Dr. and Mrs. Werner Hemstead, of Brainerd, left last evening for an outing at Solon Springs.—Duluth News Tribune.

Miss Patti Hamelin, daughter of Mr. and Mrs. O. B. Hamelin, was operated on this morning for appendicitis at St. Joseph's hospital. She rallied from the shock and it is expected that friends may see her here by Thursday.

Gutter, sheet metal work and general repairing, at D. M. Clark & Co's. 7tf

Sunday's rain drenched all of Crow Wing county extending as far north as Duluth. It was just what the country needed and in some places the moisture penetrated two feet. Corn and potatoes were much benefited.

Every Monday, Wednesday and Friday the Dispatch will give one of its subscribers two complimentary tickets to the performance of the Empress theatre. Watch the want columns for the names of these entitled to tickets. 11

8 room house for rent at North Sixth street. Inquire L. J. Cale. 42tf

A bouncing baby boy was born to Mr. and Mrs. Walter O. Hudson on July 23, 1911. Mother and child are doing well and Mr. Hudson has discovered that he now occupies a secondary place in the household as baby is the new ruler.

See Sherlund for sewer work. 43tf

In the quarters formerly occupied by Tietke & Welsh in the Citizens State bank building White Brothers are installing the extensive shelving for a shoe firm which will soon locate there. They are also making alterations to the rooms, three carpenters being engaged on the work.

If you are fatigued, try a bottle of Old Pilsener style lager beer, it is invigorating and refreshing. Order a case from the Brainerd Brewing Co., Phone 213. 304tf

A reception was given in honor of the newly wedded Mr. and Mrs. Leo Frazer Saturday evening at the home of his parents, Mr. and Mrs. Henry Frazer. A large number of invited guests were present, many of whom had not attended the wedding ceremony and they showered the couple with valuable and pretty wedding presents. Refreshments were served during the course of the evening.

Postmaster Russell, at Merrifield, has just completed his summer hotel at Merrifield, which has been named "The" and is ready to accommodate summer guests. The accommodations are the best and prices are reasonable. Able boatmen facilities. 39tf

Franklin W. Merritt, of Minneapolis, was in the city today on his way home from a trip on the Cuyuna range. He was accompanied by A. Caron, a builder and contractor of 689 Twenty-second Ave., N. E., Minneapolis, who examined the work of Mr. Merritt's company. "That mining property," said Mr. Caron, who has also mined at Ishpeming and is therefore acquainted with such propositions, "is worth millions of dollars. I was surprised to see what the company was doing and also to see the extent of the Cuyuna range. Lots of Minneapolis people have no idea of what you have in this country. They are sinking a test shaft in the northeast quarter of the north-west quarter of section 33-47-29 and will have a lot of ore to ship when they get to mining."

### Foley's Honey and Tar Compound

Is effective for coughs and colds in either children or grown persons. No opiates, no harmful drugs. In the yellow package. Refuse substitutes. For sale by all druggists. mwf

### DEWEY FORGIVES THIEF.

Refuses to Prosecute Servant Who Took Valuable Plate.

Admiral Dewey discovered recently that some beautiful silver plate given to him by friends and citizens soon after his return from Manila bay had disappeared from his home, in K Street, Washington. It was worth about \$1,200, but the associations made it far more valuable.

It was several days before Admiral Dewey could bring himself to report the facts to the police authorities, as he suspected the thief was in the confidence of his household. He went over the matter with Major Sylvester, chief of police, and asked that no publicity be given the matter without his consent. It was not long before the detective bureau recovered the plate, which had been taken by an old and trusted employee of the admiral.

When a report was made to the admiral he said it was the servant's first step in wrongdoing and decided not to prosecute. The culprit broke down under the admiral's reproaches and begged for mercy and was not only forgiven, but continued in the admiral's employ.

### Kidney Diseases are Curable

under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pitman, Dale, Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stones. One bottle of Foley's Kidney Remedy cured me well and sound." Ask for it. For sale by all druggists. mwf

### MAY BE BULLFIGHTS ON AMERICAN SOIL.

Elaborate Preparations in Salt Lake Include Matadors and Mexican Bulls.

Indications that an attempt is to be made to have real bullfights on American soil are causing much excitement among people in Salt Lake City who are opposed to such things. There are evidences that the same forces which prevented the Johnson-Jeffries fight in Utah will soon be arrayed to prevent a spectacle which they would consider far worse than pugilism.

There were hints of great things to come a few weeks ago when Felix Robert, a French matador, recently arrived with the management of Saitair, for a great Spanish festival, to begin July 22 and last eight days. No alarming announcement of a real bullfight was made, but it was said that real men of the bull ring would be present, and hints were given that their talent would not be entirely wasted.

Now the management of Saitair has made it known that Robert, who went to Mexico recently to arrange for the toreros, dancing girls and others for the troupe, has engaged some of the most successful bullfighters of the capital itself. More significantly, it is announced that he has purchased a carload of specially bred fighting bulls such as are killed in the rings in Mexico. It is remarked by one local pa-
